I have a 2005 expedition e.b. that was in a wreck on the left front where the a/c relay is located. Had a bad wire and repaired it. the fuse next to the relay had no power to it. Also the compressor was not kicking in. I jumped a power wire from the battery to the fuse wire and the compressor works.

In this post-apocalyptic novel from Newbery Medal–winning author Robert C. O'Brien, a teen girl struggling to survive in the wake of unimaginable disaster comes across another survivor. Ann Burden is sixteen years old and completely alone. The world as she once knew it is gone, ravaged by a nuclear war that has taken everyone from her. For the past year, she has lived in a remote valley with no evidence of any other survivors. But the smoke from a distant campfire shatters Ann's solitude. Someone else is still alive and making his way toward the valley. Who is this man? What does he want? Can he be trusted? Both excited and terrified, Ann soon realizes there may be worse things than being the last person on Earth.

"Highly recommended" by Choice While crossover books such as Rowling's Harry Potter series have enjoyed enormous sales and media attention, critical analysis of crossover fiction has not kept pace with the growing popularity of this new category of writing and reading. Falconer remedies this lack with close readings of six major British works of crossover fiction, and a wide-ranging analysis of the social and cultural implications of the global crossover phenomenon. A uniquely in-depth study of the crossover novel, Falconer engages with a ground-breaking range of sources, from primary texts, to child and adult reader responses, to cultural and critical theory.

Features recommendations and ratings on hundreds of small, medium, and large-sized cars based on quality, economy, performance, and comfort standards, with judgments on crash protection, and assessments of available options

This book presents a comprehensive account of past and present efforts to introduce the jury system in Japan. Four legal reforms are documented and assessed: the implementation of the bureaucratic and all-judge special jury systems in the 1870s, the introduction of the all-layperson jury in the late 1920s, the transplantation of the Anglo-American-style jury system to Okinawa under the U.S. Occupation, and the implementation of the mixed-court lay judge (saiban'in) system in 2009. While being primarily interested in the related case studies, the book also discusses the instances when the idea of introducing trial by jury was rejected at different times in Japan's history. Why does legal reform happen? What are the determinants of success and failure of a reform effort? What are the prospects of the saiban'in system to function effectively in Japan? This book offers important insights on the questions that lie at the core of the law and society debate and are highly relevant for understanding contemporary Japan and its recent and distant past.
