The world's most comprehensive, well documented, and well illustrated book on this subject. With extensive subject and geographical index. 157 photographs and illustrations. Free of charge in digital PDF format on Google Books.

Since his election in 2013, Pope Francis has tackled many issues of urgent reform within the church. Mercy in Action explores Pope Francis's efforts to renewCatholic social teaching—the guidance the church offers on matters that pertain to social justice in the world. The book examines what Pope Francis has said, done, and written on six critical social issues today—economic inequality, worker justice, preserving the environment, healthy family life, the plight of refugees, and peacemaking. The book also highlights both continuity and change in Catholic social teaching. Author Thomas Massaro illustrates how on each social issue—from expressing solidarity with unemployed workers to writing an encyclical addressing environmental degradation and climate change—Pope Francis has worked to update the church's message of social justice and mercy.

The world's most comprehensive, well documented, and well illustrated book on this subject. With extensive subject and geographical index. 253 photographs and illustrations - mostly color. Free of charge.

This book combines academic wisdom and practitioners' insights to critically examine the challenges faced by civil service systems in the 21st Century. Moreover, the book evaluates what types of civil servants are needed to tackle critical issues such as rapidly ageing populations, increased urbanisation, environmental degradation, swift technological advancement, and globalisation of the market place in the social and economic realm of the 21st Century. Its topics range from civil service development in post-Soviet countries indicating that peer-to-peer learning is the way forward, to civil service reforms in China, Japan, and Korea in their quest to satisfy their citizens demands and expectations in the 21st Century. Other topics span across regional analyses by focusing on current dominant trends and challenges confronting administrative and civil service systems, vis-à-vis technology, innovation and "big data", and their disruptive effects on society and government. This book will be of interest to both academics and practitioners, and would-be builders of the 21st Century world.

Praise for the First Edition: "Because of the way it is organized, this book meets the needs of both novice and experienced advance practice nurses. Each chapter defines the problem, how often it occurs, and what leads to the problem. To aid in assessment, the book includes the physical examination landmarks as well as diagnostic tests that might be needed. A plan of care is offered with several different alternatives for treatment and then notes what type of follow-up is needed. This would be a great resource for anyone working in the field of geriatrics. .Score: 92 - 4 Stars! --Doody's Reviews The first book to encompass adult-gerontology practice guidelines for primary care, this comprehensive resource is useful as both a clinical reference and as a text for health care practitioners working with this population . Concise and up-to-date, the book is distinguished by its easy-to-read outline format that enables readers to quickly access the information they need. The second edition features 27 completely new entries associated with the aging population, an entirely new section on geriatric syndromes, and multiple updates to guideline changes for screenings. Polypharmacy issues are incorporated throughout and the BEERS list of medications is highlighted to guide prescribers in safely tapering or adding medications to a patient's drug regimen. For quick and easy access to information, practice guidelines are organized primarily by body system, disorders are listed alphabetically within each body system, and all disorders are presented in a consistent format. With an emphasis on history taking, the physical exam, and key features of the aging population, each of the more than 240 disorder guidelines include definition, incidence, pathogenesis, predisposing factors, common complaints, other signs and symptoms, subjective data, physical exam, diagnostic tests, differential diagnoses, plan of care, health promotion, follow-up guidelines, and tips for consultation/referral. Particularly helpful features include "Practice Pointers" highlighting crucial information for a disorder and bold-faced "Alerts." Key patient teaching points are presented at the end of each guideline. Also included are 18 procedures commonly used within office or clinic settings and 140 Patient Teaching Guides that are available digitally. New to the Second Edition: 27 completely new entries New section on geriatric syndromes Polypharmacy alerts are incorporated throughout BEERS list of medications is highlighted for each disorder Updated guidelines for various screenings Medicare Coverage and Eligibility Screening U.S. Preventative Services Task Force recommendations on colonoscopy, screening mammogram guidelines, pap smears and pelvic examinations Deprescribing Algorithms ASCCP Algorithms Key Features: Focuses specifically on adult and older adult populations Presented in easy-to-read outline format for quick access to information Delivers consistent presentation of more than 240 disorders by body system Reviews 17 commonly used procedures step by step Provides "Practice Pointers" to indicate important care points Offers digital access to more than 140 extensive Patient Teaching Guides to customize and print

Ziegler documents a shift to debates on policy costs and benefits that deepened polarization on abortion in this first legal history of the period.

This book examines controversies surrounding the seizure of the Baathist security files and the discovery of an Iraqi Jewish archive amid the Kurdish uprising and the US-led invasion of Iraq. The author analyzes how the events ignited a fierce struggle for the files, which document Saddam Hussein's vast humanitarian crimes.

Branded Entertainment in Korea examines the varied texts and wider context of branded entertainment and related advertising and marketing communications practices in Korea. The book discusses the origins, development, current state, ethics, and regulations of branded entertainment in Korea, considering the impact and implications for communication users and regulators as well as industry actors. Over 30 cases from 2013 to 2019 are offered to provide an up-to-date account of current developments, with a closer look at the ethical challenges and controversies surrounding branded entertainment. The book also provides a review of branded entertainment-related literature in order to help the readers to understand this growing marketing discipline. This is a valuable case study for scholars and students of critical advertising studies, as well as those interested in broader disciplines of communication and media studies.

Few American cities possess a history as long, rich, and fascinating as Boston's. A site of momentous national political events from the Revolutionary War through the civil rights movement, Boston has also been an influential literary and cultural capital. From ancient glaciers to landmarking schemes and modern infrastructure projects, the city's terrain has been transformed almost constantly over the centuries. The Atlas of Boston History traces the city's history and geography from the last ice age to the present with beautifully rendered maps. Edited by historian Nancy S. Seasholes, this landmark volume captures all aspects of Boston's past in a series of fifty-seven stunning full-color spreads. Each section features newly created thematic maps that focus on moments and topics in that history. These maps are accompanied by hundreds of historical and contemporary illustrations and explanatory text from historians and other expert contributors. They illuminate a wide range of topics including Boston's physical and economic development, changing demography, and social and cultural life. In lavishly produced detail, The Atlas of Boston History offers a vivid, refreshing perspective on the development of this iconic American city. Contributors Robert J. Allison, Robert Charles Anderson, John Avault, Joseph Bagley, Charles Bahne, Laurie Baise, J. L. Bell, Rebekah Bryer, Aubrey Butts, Benjamin L. Carp, Amy D. Feinstein, Gerald Gamm, Richard Garver, Katherine Grandjean, Michelle Granshaw, James Green, Dean Grodzins, Karl Haglund, Ruth-Ann M. Harris, Arthur Krim, Stephanie Krueel, Kerima M.
