First published in 2001. Routledge is an imprint of Taylor & Francis, an informa company.

This highly accessible portrayal of a post-apartheid neighborhood in transition analyzes the relationship between identity, migration, and place. Since it was founded in 1894, amidst Johannesburg's transformation from a mining town into the largest city in southern Africa, Hillbrow has been a community of migrants. As the "city of gold" accumulated

wealth on the backs of migrant laborers from southern Africa, Jewish Eastern Europeans who had fled pogroms joined other Europeans and white South Africans in this emerging suburb. After World War II, Hillbrow became a landscape of high-rises that lured western and southern Europeans seeking prosperity in South Africa's booming economy. By the 1980s, Hillbrow housed some of the most vibrant and visible queer spaces on the continent while also attracting thousands of Indian and Black South Africans who defied apartheid laws to live near the city center. Filling the void for a book about migration within the Global

South, The Roads to Hillbrow explores how one South African neighborhood transformed from a white suburb under apartheid into a "grey zone" during the 1970s and 1980s to become a "port of entry" for people from at least twenty-five African countries. The Roads to Hillbrow explores the diverse experiences of domestic and transnational migrants who have made their way to this South African community following war, economic dislocation, and the social trauma of apartheid. Authors Ron Nerio and Jean Halley weave sociology, history, memoir, and queer studies with stories drawn from more than 100

interviews. Topics cover the search for employment, options for housing, support for unaccompanied minors, possibilities for queer expression, the creation of safe parks for children, and the challenges of living without documents. Current residents of Hillbrow also discuss how they cope with inequality, xenophobia, high levels of crime, and the harsh economic impacts of COVID-19. Many of the book's interviewees arrived in Hillbrow seeking not only to gain better futures for themselves but also to support family members in rural parts of South Africa or in their countries of origin. Some immerse

themselves in justice work, while others develop LGBTQ+ support networks, join religious and community groups, or engage in artistic expression. By emphasizing the disparate voices of migrants and people who work with migrants, this book shows how the people of Hillbrow form connections and adapt to adversity.

Natalie Lindstrom has a gift: the power to speak to the dead, to solve crimes by interviewing murder victims. But now Natalie wants to escape. Escape from the voices that fill her head. Escape from the organization

that has used her as a crime-solving tool...and now wants to recruit her daughter. So Natalie takes a job as far from crime and punishment as she can get: with an archaeologist in the mountains of Peru. Her job: to find a trove of priceless artifacts—by channeling those who lived and died at an ancient Incan site. But in the towering Andes, Natalie enters a 500-year-old storm of betrayal, murder, greed, and rage—and she cannot silence the voices of the dead. The slaughtered reach out to her. The slaughterers boast of their crimes. Alone, cut off from her family, Natalie faces a chilling realization: every

Callie can't resist the advertisement for a ranch manager in Montana. Only thing is, it also stipulates marriage. Down on her luck with more debt than she can manage after the death of her parents in a vehicle accident, she takes the plunge and commits for twelve months. Chance is sick of the high life he's led for years as a top International Bull Rider. The glitz and glamour aren't what he wants. After an accident leaves him unable to return to the tour, he decides now is the

time to do what his heart has been yearning for - marry a down to earth country girl and raise bulls on his ranch, with the hope of bringing his brothers back together. Little did he know that an advertisement would bring him a sassy talking Australian bride to turn his world up side down... Will Callie return home after her contract is up, or can Chance convince her to say I do forever?

This book explores how fire, plants and people coexist in the Anthropocene. In a time of dramatic environmental transformation, the authors examine how human impacts on the

planetary system are being felt at all levels from the geological and the arboreal to the atmospheric. The book brings together the disciplines of human geography and art history to examine fire-plant-people alliances and multispecies world-making. The authors listen carefully to the narratives of bushfire survivors. They embrace the responses of contemporary artists, as practice becomes interwoven with fire as well as ruin and regrowth. Through visual, textual and felt ways of being, the chapters illuminate, illustrate, impress and imprint the imagined and actual agency of plants and

assists in a murder investigation. It's a personal request from Suk-bo Yi, a ninety-eight-year-old woman questioned in a mysterious death at a Koreatown nursing home. A stranger to Anna, Suk-bo has a tale to tell. For reasons of her own, she's chosen Anna--only Anna--to hear it... Suk-bo's story begins in 1937, when the Japanese occupying Korea force her to marry one of their own named Hisashi. In spite of their differences, they fall madly in love, pitting them against two violently opposing cultures. When Hisashi joins the Japanese Imperial Army and disappears, Suk-bo embarks on a quest through

It's time for a story of human evolution that goes beyond describing "ape-men" and talks about what women and children were doing. In a few decades, a torrent of new evidence and ideas about human evolution has allowed scientists to piece together a more detailed understanding of what went on thousands and even millions of years ago. We now know much more about the problems our ancestors faced, the solutions they found, and the trade-offs they made. The drama of their experiences led to the humans we are today: an animal that relies on a complex culture. We are a species

that can and does rapidly evolve cultural solutions as we face new problems, but the intricacies of our cultures mean that this often creates new challenges. Our species' unique capacity for culture began to evolve millions of years ago, but it only really took off in the last few hundred thousand years. This capacity allowed our ancestors to survive and raise their difficult children during times of extreme climate chaos.

Understanding how this has evolved can help us understand the cultural change and diversity that we experience today. Lesley Newson and Peter Richerson, a husband-and-

wife team based at the University of California, Davis, began their careers with training in biology. The two have spent years together and individually researching and collaborating with scholars from a wide range of disciplines to produce a deep history of humankind. In *A Story of Us*, they present this rich narrative and explain how the evolution of our genes relates to the evolution of our cultures. Newson and Richerson take readers through seven stages of human evolution, beginning seven million years ago with the apes that were the ancestors of humans and today's chimps and
