351 Windsor Marine Engine Specs - btgresearch.org

The Ford 351 Windsor was first introduced in 1969 and was quite a breakthrough in regards to the ways Ford produced its V8 engines. When Ford introduced the 302 to replace the 289 the engines were very similar and even used the same pistons.. The 351 Windsor was in a league of its own because of its heightened deck block, larger connecting rods and much "beefier" main bearing caps.

Marine 351w engine - YouTube

Whether marine or street, 302W or 351W, all are junk for any even mild performance engine. Small exhaust ports kill any hp potential (need to really bookmark this as it's often repeated here by me!). Heavy porting is iffy since you'll hit water unless the porter has experience with early Ford iron.
