Mastering Commercial Applications for Classes IX and X is written in accordance with the latest ICSE syllabus prescribed by the Council for the Indian School Certificate Examinations, New Delhi. The book is a New Age Text book which adopts a fresh and novel approach to the study of Commercial Applications.

Every job requires you to prepare, use, respond to, or be evaluated using accounting data. Understanding what accounting is, why it's important, and how to effectively use and prepare accounting data will give you a competitive edge in any organization. The focus of ACCOUNTING: CONCEPTS & APPLICATIONS, 11E is on developing the ability to critically analyze accounting information and make informed business decisions. Readers are exposed to a myriad of real-world examples where they can see the effect that accounting information has on the decisions made by real companies. The text also makes a concerted effort to highlight the ethical considerations and global implications of financial accounting decisions in our world.

C. Rufus Rorem, (1894-1988) was a pioneer in the development of group medical insurance and pre-paid health care. At the time the concepts were radical, but in 1937 he became head of the American Hospital Association's committee on hospital services, which fostered the first prepaid hospitalization plans in New York and other cities, followed in the 1940's by doctors' group practice. This collection includes out of print and difficult to access primary and secondary sources on Rorem's work, including his 1929 dissertation which presents his major, and still relevant writings on financial accounting theory and practice in a comprehensive, integrated context.

The text and images in this book are in grayscale. A hardback color version is available. Search for ISBN 9781680922929. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.
