professional actors each year hoping to get a foot in the door with a solid resum built in high school college and local theatre company productions. But competition for parts is fierce and no li

For fifty years the abortion debate has remained stagnant, trapped in sterile categories and familiar rhetoric. Each side thinks they know what the other has to say, so they don't listen. Consequently, they have become deaf to each other's pleas. Danielle D'Souza Gill, in a pathbreaking new book, blows the lid off the abortion debate, which is radically different than it was when the Supreme Court issued its landmark ruling of Roe v. Wade in 1973. Technology has transformed the landscape and allowed people to see development in the womb. Ultrasound has rendered many old assumptions about abortion obsolete. The Democratic Left has become radicalized on abortion. It is no longer a necessary evil, but a positive good. Consequently, the Left has legitimized a form of mass killing in this country that dwarfs the deaths caused by cancer, smoking, homicide, terrorism, and war. Writing with freshness, intelligence, and insight, Danielle explores the contours of the debate, taking into account new ideas, new technology, and new laws and putting forth a new vision for a life-affirming society. In Socratic style, Danielle builds her case in response to the strongest contentions of the pro-choice camp. She engages their most powerful arguments head-on, carefully examines them, and then dismantles them. The result is a pro-life argument so persuasive that it will reach into the heart of the most hardened opponent. While it is a heartbreaking book, it is in the end inspiring. No matter what you believe about abortion, this book will educate, astonish, and deeply move you. It may move you to a position different from what you now hold. If you read one book about abortion, make it this one, *The Choice: The Abortion Divide in America*.

Shakespeare's history plays make up nearly a third of his corpus and feature iconic characters like Falstaff, the young Prince Hal, and

## Where To Download Act 2 Scene 2 Bbc

Richard III--as well as unforgettable scenes like the storming of Harfleur. But these plays also present challenges for teachers, who need to help students understand shifting dynastic feuds, manifold concepts of political power, and early modern ideas of the body politic, kingship, and nationhood. Part 1 of this volume, "Materials," introduces instructors to the many editions of the plays, the wealth of contextual and critical writings available, and other resources. Part 2, "Approaches," contains essays on topics as various as masculinity and gender, using the plays in the composition classroom, and teaching the plays through Shakespeare's own sources, film, television, and the Web. The essays help instructors teach works that are poetically and emotionally rich as well as fascinating in how they depict Shakespeare's vision of his nation's past and present.

This bibliography presents the life and works of composer Alan Rawsthorne and provides a view of his contributions to 20th-century, British music.

'The Documentary Handbook is mandatory reading for those who want a critical understanding of the place of factual formats in today ' s exploding television and media industry, as well as expert guidance in complex craft skills in order to fully participate. The practical advice and wisdom here is second to none.' — Tony Steyger, Principal Lecturer, Southampton Solent University, UK

The Documentary Handbook is a critical introduction to the documentary film, its theory and changing practices. The book charts the evolution of documentary from screen art to core television genre, its metamorphosis into many different types of factual TV programme and its current emergence in forms of new media. It analyses those pathways and the transformation of means of production through economic, technical and editorial changes. The Documentary Handbook explains the documentary process, skills and job specifications for everyone from industry entrants to

senior personnel, and shows how the industrial evolution of television has relocated the powers and principles of decision-making. Through the use of professional Expert Briefings it gives practical pointers about programme-making, from research, developing and pitching programme ideas to their production and delivery through a fast-evolving multi-platform universe.

He ' s spent a career helping people access their creative potential, and now Shaun McNiff is sharing the secrets he ' s learned from observing his own creative process as well as that of others—both those who identify as artists and those who don ' t. The result is nothing less than a master class in creativity by one of the great creative theorists—and practitioners—of our time. "This is intended as a practical text," Shaun says, "a creativity primer, striving to capture the essential things that have been of use to me and others." The wealth of instruction he provides here in these essential things will be indispensable to artists of all stripes, as well as to all who strive to express themselves with honesty and authenticity using any of the media life makes available.

Enacting History is a practical guide for educators that provides methodologies and resources for teaching the Holocaust through a variety of theatrical means, including scripted texts, verbatim testimony, devised theater techniques and process-oriented creative exercises. A close collaboration with the USC Shoah Foundation I Witness program and the National Jewish Theater Foundation Holocaust Theater International Initiative at the University of Miami Miller Center for Contemporary Judaic Studies resulted in the ground-breaking work within this volume. The material facilitates teaching the Holocaust in a way that directly connects students to individual people and historical events through the art of theater. Each section is designed to help middle and high school

## Where To Download Act 2 Scene 2 Bbc

educators meet curricular goals, objectives and standards and to integrate other educational disciplines based upon best practices. Students will gain both intellectual and emotional understanding by speaking the words of survivors, as well as young characters in scripted scenes, and developing their own performances based on historical primary sources. This book is an innovative and invaluable resource for teachers and students of the Holocaust; it is an exemplary account of how the power of theater can be harnessed within the classroom setting to encourage a deeper understanding of this defining event in history.

This vibrant history of London in the twentieth century reveals the city as a key site in the development of black internationalism and anticolonialism. Marc Matera shows the significant contributions of people of African descent to London ' s rich social and cultural history, masterfully weaving together the stories of many famous historical figures and presenting their quests for personal, professional, and political recognition against the backdrop of a declining British Empire. A groundbreaking work of intellectual history, *Black London* will appeal to scholars and students in a variety of areas, including postcolonial history, the history of the African diaspora, urban studies, cultural studies, British studies, world history, black studies, and feminist studies.
