they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

Dramatic shifts in our communication landscape have made it crucial for language teaching to go beyond print literacy and encompass the digital literacies which are increasingly central to learners' personal, social, educational and professional lives. By situating these digital literacies within a clear theoretical framework, this book provides educators and students alike with not just the background for a deeper understanding of these key 21st-century skills, but also the rationale for integrating these skills into classroom practice. This is the first methodology book to address not just why but also how to teach digital literacies in the English language classroom. This book provides: A theoretical framework through which to categorise and prioritise digital literacies Practical classroom activities to help learners and teachers develop digital literacies in tandem with key language skills A thorough analysis of the pedagogical implications of developing digital literacies in teaching practice A consideration of exactly how to integrate digital literacies into the English language syllabus Suggestions for teachers on how to continue their own professional development through PLNs (Personal Learning Networks), and how to access teacher development opportunities online. This book is ideal for English language teachers, English language learners of all ages and levels, academics and researchers

of all age groups and levels, academics and students researching digital literacies, and anyone looking to expand their understanding of digital literacies within a teaching framework.

Improves English progress at Key Stage 2 by 3.75 times the UK national average

Dominic Traynor, the founder of LitFilmFest, and experienced educator Cath Bufton-Green offer a practical method for primary teachers to radically improve English attainment in their classroom. This innovative approach links global challenges including politics, social change, the environment, health and advertising to the five key National Curriculum areas in English: reports, instructions, persuasive language, fiction and poetry, and presentation skills. It develops reading and writing through exciting, real-world tasks such as emailing a politician, creating a viral video and using social media to start petitions. Literacy Beyond the Classroom presents ready-to-use lesson plans, exercises and activities to help teachers bring this concept to life in the primary classroom. This way of learning has been found to improve English progress at Key Stage 2 by 3.75 times the UK national average. The projects can be completed in Adobe Spark. By teaching English in this practical, purposeful and more meaningful way, we can inspire the YouTube generation to learn the literacy skills they need to influence the world around them and have a positive impact as global citizens.
