Book Review #3 It's A Book Haul (Thrifted and Gifted Books)

NATIONAL BESTSELLER □ A stunning “portrait of the enduring grace of friendship” (NPR) about the families we are born into, and those that we make for ourselves. A masterful depiction of love in the twenty-first century. A NATIONAL BOOK AWARD FINALIST □ A MAN BOOKER PRIZE FINALIST □ WINNER OF THE KIRKUS PRIZE A Little Life follows four college classmates—broke, adrift, and buoyed only by their friendship and ambition—as they move to New York in search of fame and fortune. While their relationships, which are tinged by addiction, success, and pride, deepen over the decades, the men are held together by their devotion to the brilliant, enigmatic Jude, a man scarred by an unspeakable childhood trauma. A hymn to brotherly bonds and a masterful depiction of love in the twenty-first century, Hanya Yanagihara’s stunning novel is about the families we are born into, and those that we make for ourselves. Look for Hanya Yanagihara’s new novel, To Paradise, coming in January 2022.

The inspiring, against-the-odds story of Gino Bartali, the cyclist who made the greatest comeback in Tour de France history and secretly aided the Italian resistance during World War II Gino Bartali is best known as an Italian cycling legend who not only won the Tour de France twice but also holds the record for the longest time span between victories. In Road to Valor, Aili and Andres McConnon chronicle Bartali’s journey, from an impoverished childhood in rural Tuscany to his first triumph at the 1938 Tour de France. As World War II ravaged Europe, Bartali undertook dangerous activities to help those being targeted in Italy, including sheltering a family of Jews and smuggling counterfeit identity documents in the frame of his bicycle. After the grueling wartime years, the chain-smoking, Chianti-loving, 34-year-old underdog came back to win the 1948 Tour de France, an exhilarating performance that helped unite his fractured homeland. Based on nearly ten years of research, Road to Valor is the first book ever written about Bartali in English and the only book written in any language to explore the full scope of Bartali’s wartime work. An epic tale of courage, resilience, and redemption, it is the untold story of one of the greatest athletes of the twentieth century.

Describes the 1985 purchase of a bottle of 1787 Chateau Lafite Bordeaux for \$156,000, the mysterious background of the wine, and the enigmatic wine collector who discovered the bottle, once supposedly owned by Thomas Jefferson, in a bricked-up Paris cellar.

Battles and Borders. Perspectives on Cultural Transmission and Literature in Minor Language Areas is about literature on the fringes of Europe. The authors all discuss the often unique ways in which literary history and cultural transfer function in peripheral and central regions against the background of shifting national borders in the last two centuries. Special attention is paid to minority and migrant groups in Northwest Europe. The present volume aims to prompt a reconsideration of the concepts of 'minority' and 'migrant' cultures and literatures in the past and the present day. It also suggests a new topic for further study: the importance of cultural transfer for migrant groups (whether or not they form a diaspora) and their ability to create new words and to develop new identities. This seventh volume in the Studies on Cultural Transfer and Transmission (CTaT) series is a spinoff of the research project 'Peripheral Autonomy? Longitudinal analysis of cultural transfer in the literary fi elds of small language communities'. This project was carried out by scholars at the University of Groningen, Ghent University and Uppsala University. It started in 2006 and concluded with the publication in 2012 of Rethinking Cultural Transfer and Transmission. Reflections and New Perspectives.

“Greg LeMond was Lance Armstrong before Lance Armstrong . . . the story of a true hero . . . This is a must read if you believe in miracles.”—John Feinstein, New York Times–bestselling author In July 1986, Greg LeMond stunned the sporting world by becoming the first American to win the Tour de France, the world’s pre-eminent bicycle race, defeating French cycling legend Bernard Hinault. Nine months later, LeMond lay in a hospital bed, his life in peril after a hunting accident, his career as a bicycle racer seemingly over. And yet, barely two years after this crisis, LeMond mounted a comeback almost without parallel in professional sports. In summer 1989, he again won the Tour—arguably the world’s most grueling athletic contest—by the almost impossibly narrow margin of 8 seconds over another French legend, Laurent Fignon. It remains the closest Tour de France in history. “[A] blend of chaos, kindness and cruelty typifies the scenes that journalist de Visé brings to life in this sympathetic-verging-on-reverential retelling of LeMond’s trailblazing career (first American to enter the tour, first to win it) . . . As an author in quest of his protagonist’s motivation, [de Visé] subjects it to extreme torque.”—The Washington Post “A great book . . . Well written and thoroughly researched. . . . Engrossing and hard to put down. If you’re a Greg LeMond fan, The Comeback is a must read because it’s a detailed accounting of his career and—more importantly—his life and person off the bike. It’s also an important reminder that American cycling did not begin and end with Lance Armstrong.”—PEZ

When conducting research in developing countries, an ability to negotiate a bewildering array of cultural and logistical obstacles is essential. Overseas Research: A Practical Guide distills essential lessons from scores of students and scholars who have collected data and done fieldwork abroad, including how to prepare for the field, how and where to find funding for one’s fieldwork, issues of personal safety and security, and myriad logistical and relational issues. By encouraging researchers to think through the challenges of research before they begin it, Overseas Research will help prepare fieldworkers for the practical, logistical, and psychological considerations of very demanding work, help save valuable time, make the most of scarce financial resources, and enhance the quality of the field research. This third edition contains new material on social media, including representation of research subjects/collaborators, students’ digital branding and image, and representing universities abroad when posting publicly. It also covers emerging technologies such as solar panels for power in remote locations, new ways of digitally sending and receiving money, and incorporates more perspectives of women, LGBTQ+ people, and people of color researching abroad. The book will be of interest to overseas fieldworkers, and also to undergraduates in subjects such as anthropology, economics, geography, history, international studies, politics, sociology, and development studies.

Immortality is worth any price. . . .Isn't it? Springshadow is a fox on a mission. All she has to do is stay alive for a thousand years, and she will live forever. A thousand years is a long time for any mortal creature, but Springshadow knows a way. Naturally, there's a cost. It's a steep one, but not having a human conscience helps a lot. Especially on the day that price demands the life of the mortal who loved her. After all, isn't immortality the greatest prize there is? On second thought, maybe there's a better one. Maybe living forever isn't as great an idea as it seemed. And maybe, just maybe, she'll need that "conscience" thing after all. You'll love The Heavenly Fox because who doesn't love a mythic adventure of discovery and redemption? Get your copy now.

Otis, Willie, and Hibernia are three children with a lot in common: they've all lost a loved one, they each have secret dreams, and they won't stop fighting for what they want. And they're also a lot like their hero, famed boxer Joe Louis. Throughout this moving novel, their lives gradually converge to form friendship, family, and love. Their trials and triumphs echo those of Joe Louis, as he fights to become the heavyweight boxing champion. Andrea Pinkney masterfully weaves in factual information about Joe Louis and actual radio commentary from his fights, enriching the narrative of this uniquely rendered and beautifully written novel.

One woman's discovery-and the incredible, unexpected journey it takes her on-of how her grandparent's small village of Campagna, Italy, helped save Jews during the Holocaust. Take a journey with Elizabeth Bettina as she discovers-much to her surprise-that her grandparent's small village, nestled in the heart of southern Italy, housed an internment camp for Jews during the Holocaust, and that it was far from the only one. Follow her discovery of survivors and their stories of gratitude to Italy and its people. Explore the little known details of how members of the Catholic church assisted and helped shelter Jews in Italy during World War II.

Names in Focus delves deep into the vast field of Finnish onomastics, covering place names, personal names, animal names, commercial names and names in literature. It provides the history and current trends in this area of research, and also supplements international terminology with the Finnish point of view on the subject. Brimming with examples and clear explanations, the book can be enjoyed by the most studious of researchers as well as the casual reader who has a genuine interest in the study of names.
