At the request of the AJCC, worldwide data were assembled to develop the 7th edition staging system for esophageal cancer. 1 The Worldwide Esophageal Cancer Collaboration (WECC) was inaugurated in 2006. Thirteen institutions from five countries and three continents (Asia, Europe, and North America) submitted deidentified data by July 2007.

7th Edition of the AJCC Cancer Staging Manual: Esophagus ...

Prior to the 7th edition of AJCC, conventional TNM staging was the main set of criteria to stratify patients by prognosis. TNM staging remains an important component of prognostic stratification today, but tumor behaviors vary within the resulting stage categories, with the same adjuvant treatments for identically-staged tumors yielding different responses.
