Rasmussen's thesis won the Kathryn Ann Huggins Prize, the Perry Miller Prize and the Thomas Temple Hoopes Prize, Harvard's top undergraduate academic honor. The thesis is the basis for Rasmussen's first book, American Uprising: The Untold Story of America's Largest Slave Revolt. www.danrasmussen.net

A gripping and deeply revealing history of an infamous slave rebellion that nearly toppled New Orleans and changed the course of American history In January 1811, five hundred slaves, dressed in military uniforms and armed with guns, cane knives, and axes, rose up from the plantations around New Orleans and set out to conquer the city. Their march represented the largest act of armed resistance against slavery in the history of the United States.

American Uprising is the riveting and long-neglected story of this elaborate plot, the rebel army's dramatic march on the city, and its shocking conclusion. No North American slave uprising-not Gabriel Prosser's, not Denmark Vesey's, not Nat Turner's-has rivaled the scale of this rebellion either in terms of the number of the slaves involved or the number who were killed. More than one hundred slaves were slaughtered by federal troops and French planters, who then sought to write the event out of history and prevent the spread of the slaves' revolutionary philosophy. With the Haitian revolution a recent memory and the War of 1812 looming on the horizon, the revolt had epic consequences for America. Through groundbreaking original research, Daniel Rasmussen offers a window into the young, expansionist country, illuminating the early history of New Orleans and providing new insight into the path to the Civil War and the slave revolutionaries who fought and died for justice and the hope of freedom.

Lucasville tells the story of one of the longest prison uprisings in U.S. history. At the maximum-security Southern Ohio Correctional Facility in Lucasville, Ohio, prisoners seized a major area of the prison on Easter Sunday, 1993. More than 400 prisoners held L block for eleven days. Nine prisoners alleged to have been informants, or "snitches," and one hostage correctional officer, were murdered. There was a negotiated surrender. Thereafter, almost wholly on the basis of testimony by prisoner informants who received deals in exchange, five spokespersons or leaders were tried and sentenced to death, and more than a dozen others received long sentences. Lucasville examines the causes of the disturbance, what happened during the eleven days, and the fairness of the trials. Particular emphasis is placed on the interracial character of the action, as evidenced in the slogans that were found painted on walls after the surrender: "Black and White Together," "Convict Unity," and "Convict Race." An eloquent Foreword by Mumia Abu-Jamal underlines these themes. He states, as does the book, that the men later sentenced to death "sought to minimize violence, and indeed, according to substantial evidence, saved the lives of several men, prisoner and guard alike." Of the five men, three black and two white, who were sentenced to death, Mumia declares, "They rose above their status as prisoners, and became, for a few days in April 1993, what rebels in Attica had demanded a generation before them: men. As such, they did not betray each other; they did not dishonor each other; they reached beyond their prison 'tribes' to reach commonality."

"If you want to understand the massive antiracist protests of 2020, put down the navel-gazing books about racial healing and read *America on Fire*." –Robin D. G. Kelley, author of *Freedom Dreams: The Black Radical Imagination* From one of our top historians, a groundbreaking story of policing and "riots" that shatters our understanding of the post-civil rights era. What began in spring 2020 as local protests in response to the killing of George Floyd by Minneapolis police quickly exploded into a massive nationwide movement. Millions of mostly young people defiantly flooded into the nation's streets, demanding an end to police brutality and to the broader, systemic repression of Black people and other people of color. To many observers, the protests appeared to be without precedent in their scale and persistence. Yet, as the acclaimed historian Elizabeth Hinton demonstrates in *America on Fire*, the events of 2020 had clear precursors—and any attempt to understand our current crisis requires a reckoning with the recent past. Even in the aftermath of Donald Trump, many Americans consider the decades since the civil rights movement in the mid-1960s as a story of progress toward greater inclusiveness and equality. Hinton's sweeping narrative uncovers an altogether different history, taking us on a troubling journey from Detroit in 1967 and Miami in 1980 to Los Angeles in 1992 and beyond to chart the persistence of structural racism and one of its primary consequences, the so-called urban riot. Hinton offers a critical corrective: the word riot was nothing less than a racist trope applied to events that can only be properly understood as rebellions—explosions of collective resistance to an unequal and violent order. As she suggests, if rebellion and the conditions that precipitated it never disappeared, the optimistic story of a post-Jim Crow United States no longer holds. Black rebellion, *America on Fire* powerfully illustrates, was born in response to poverty and exclusion, but most immediately in reaction to police violence. In 1968, President Lyndon Johnson launched the "War on Crime," sending militarized police forces into impoverished Black neighborhoods. Facing increasing surveillance and brutality, residents threw rocks and Molotov cocktails at officers, plundered local businesses, and vandalized exploitative institutions. Hinton draws on exclusive sources to uncover a previously hidden geography of violence in smaller American cities, from York, Pennsylvania, to Cairo, Illinois, to Stockton, California. The central lesson from these eruptions—that police violence invariably leads to community violence—continues to escape policymakers, who respond by further criminalizing entire groups instead of addressing underlying socioeconomic causes. The results are the hugely expanded policing and prison regimes that shape the lives of so many Americans today. Presenting a new framework for understanding our nation's enduring strife, *America on Fire* is also a warning: rebellions will surely continue unless police are no longer called on to manage the consequences of dismal conditions beyond their control, and until an oppressive system is finally remade on the principles of justice and equality.

In a remarkable feat of historical detective work, David Robertson illuminates the shadowy figure who planned a slave rebellion so daring that, if successful, it might have changed the face of the antebellum South. This is the story of a man who, like Nat Turner, Marcus Garvey, and Malcolm X, is a complex yet seminal hero in the history of African American emancipation. Denmark Vesey was a charismatic ex-slave–literate, professional, and relatively well-off—who had purchased his own freedom with a lottery. Inspired by the success of the revolutionary black republic in Haiti, he persuaded some nine thousand slaves to join him in a revolt. On a June evening in 1822, having gathered guns, and daggers, they were to converge on Charleston, South Carolina, take the city's arsenal, murder the populace, burn the city, and escape by ship to Haiti or Africa. When the uprising was betrayed, Vesey and seventy-seven of his followers were executed, the matter hushed by Charleston's elite for fear of further rebellion. Compelling, informative, and often disturbing, this book is essential to a fuller understanding of the struggle against slavery.

An engaging, necessary look at the private prison system, and a convincing clarion call for prison reform." –NPR.org New York Times Book Review 10 Best Books of 2018 * One of President Barack Obama's favorite books of 2018 * Winner of the 2019 J. Anthony Lukas Book Prize * Winner of the Helen Bernstein Book Award for Excellence in Journalism * Winner of the 2019 RJK Book and Journalism Award * A New York Times Notable Book A ground-breaking and brave inside reckoning with the nexus of prison and profit in America: in one Louisiana prison and over the course of our country's history. In 2014, Shane Bauer was hired for \$9 an hour to work as an entry-level prison guard at a private prison in Winnfield, Louisiana. An award-winning investigative journalist, he used his real name; there was no meaningful background check. Four months later, his employment came to an abrupt end. But he had seen enough, and in short order he wrote an exposé about his experiences that won a National Magazine Award and became the most-read feature in the history of the magazine Mother Jones. Still, there was much more that he needed to say. In *American Prison*, Bauer weaves a much deeper reckoning with his experiences together with a thoroughly researched history of for-profit prisons in America from their origins in the decades before the Civil War. For, as he soon realized, we can't understand the cruelty of our current system and its place in the larger story of mass incarceration without understanding where it came from. Private prisons became entrenched in the South as part of a systemic effort to keep the African-American labor force in place in the aftermath of slavery, and the echoes of these shameful origins are with us still. The private prison system is deliberately unaccountable to public scrutiny. Private prisons are not incentivized to tend to the health of their inmates, or to feed them well, or to attract and retain a highly-trained prison staff. Though Bauer befriends some of his colleagues and sympathizes with their plight, the chronic dysfunction of their lives only adds to the prison's sense of chaos. To his horror, Bauer finds himself becoming crueler and more aggressive the longer he works in the prison, and he is far from alone. A blistering indictment of the private prison system, and the powerful forces that drive it, *American Prison* is a necessary human document about the true face of justice in America.

THE INSTANT NEW YORK TIMES BESTSELLER! Also on the USA Today, Washington Post, Boston Globe, Globe and Mail, Publishers Weekly, and Indie bestseller lists. One of the most important stories of World War II, already optioned by Steven Spielberg for a major motion picture: a spectacular, searing history that brings to light the extraordinary accomplishments of brave Jewish women who became resistance fighters—a group of unknown heroes whose exploits have never been chronicled in full, until now. Witnesses to the brutal murder of their families and neighbors and the violent destruction of their communities, a cadre of Jewish women in Poland—some still in their teens—helped transform the Jewish youth groups into resistance cells to fight the Nazis. With courage, guile, and nerves of steel, these "ghetto girls" paid off Gestapo guards, hid revolvers in loaves of bread and jars of marmalade, and helped build systems of underground bunkers. They flirted with German soldiers, bribed them with wine, whiskey, and home cooking, used their Aryan looks to seduce them, and shot and killed them. They bombed German train lines and blew up a town's water supply. They also nursed the sick, taught children, and hid families. Yet the exploits of these courageous resistance fighters have remained virtually unknown. As propulsive and thrilling as *Hidden Figures*, *In the Garden of Beasts*, and *Band of Brothers*, *The Light of Days* at last tells the true story of these incredible women whose courageous yet little-known feats have been eclipsed by time. Judy Batalion—the granddaughter of Polish Holocaust survivors—takes us back to 1939 and introduces us to Renia Kukielka, a weapons smuggler and messenger who risked death traveling across occupied Poland on foot and by train. Joining Renia are other women who served as couriers, armed fighters, intelligence agents, and saboteurs, all who put their lives in mortal danger to carry out their missions. Batalion follows these women through the savage destruction of the ghettos, arrest and internment in Gestapo prisons and concentration camps, and for a lucky few—like Renia, who orchestrated her own audacious escape from a brutal Nazi jail—into the late 20th century and beyond. Powerful and inspiring, featuring twenty black-and-white photographs, *The Light of Days* is an unforgettable true tale of war, the fight for freedom, exceptional bravery, female friendship, and survival in the face of staggering odds. NPR's Best Books of 2021 National Jewish Book Award, 2021 Canadian Jewish Literary Award, 2021

The sleeper history hit of 2008, released in paperback to coincide with the heart of hurricane season On September 2, 1775, the eighth deadliest Atlantic hurricane of all time landed on American shores. Over the next days, it would race up the East Coast, striking all of the important colonial capitolS and killing more than four thousand people. In an era when hurricanes were viewed as omens from God, what this storm signified to the colonists about the justness of their cause would yield unexpected results. Drawing on ordinary individuals and well-known founders like Washington and Franklin, Tony Williams paints a stunning picture of life at the dawn of the American Revolution, and of the weighty choice people faced at that deciding moment. Hurricane of Independence brings to life an incredible time when the forces of nature and the forces of history joined together to produce courageous stories of sacrifice, strength, and survival.

The shocking story of a WWII shootout between black and white GIs in a quiet Cornish town that put the British-US "special relationship" on trial. On September 26, 1943, racial tensions between American soldiers stationed in Cornwall erupted in gunfire. Labelled a 'wild west' mutiny by the tabloids, it became front page news in Great Britain and the USA. For Americans, it bolstered a fast-accelerating civil rights movement, while in the UK, it exposed unsettling truths about Anglo-American relations. With new archival research, journalist Kate Merran pieces together the shocking drama that authorities tried to hush up. Her narrative examines everything from the controversy of American segregation on British soil to the shocking event itself and the resulting court martial. Extracted from wartime cabinet documents, secret government surveys, opinion polls, diaries, letters and newspapers as well as testimony from those who remember it, this story offers a rare window into a little-known dark side of the 'American Invasion.'

"Exceptionally well written, a true story that seems as much a thriller as the remembrances of an ambitious and brave woman. . . . This timely book. . . is a lesson in courage and perseverance." – Washington Post An inspirational memoir from Africa's first elected female president about her improbable rise to international prominence, her fight for political freedom, and her unwavering determination to rebuild her nation-Liberia-In the wake of civil war In January 2006, after the Republic of Liberia had been racked by fourteen years of brutal civil conflict, Ellen Johnson Sirleaf-Africa's "Iron Lady"-was sworn in as president, an event that marked a tremendous turning point in the history of the West African nation. In this stirring memoir, Sirleaf shares the story of her rise to power, including her early childhood; her experiences with abuse, imprisonment, and exile; and her fight for democracy and social justice. She reveals her determination to succeed in multiple worlds, from her studies in the United States to her work as an international bank executive, to campaigning in some of Liberia's most desperate and war-torn villages and neighborhoods. It is the tale of an outspoken political and social reformer who fought the oppression of dictators and championed change. By telling her story, Sirleaf encourages women everywhere to pursue leadership roles at the highest levels of power, and gives us all hope that we can change the world.
