Since the apartment occupies two full floors in the building, the maintenance seems high at \$20,000 per month, or \$3.65 per month per foot. At \$2.50 per foot, the maintenance would be \$13,750 per month, or \$6,250 less\u2014that \$6,250, annualized, equals \$75,000.

Apartment Owners: Let's Do the Math With Maintenance Costs ...

Why? Put simply, apartments are residents\u2019 homes. In buildings such as offices or retail spaces, tenants leave at the end of the day and go home. In rental housing, these residents are home. This changes how the building is designed, marketed and, most importantly, operated. For this reason, making maintenance (both general and preventative) a priority helps to keep the building and resident experience running smoothly.

Taking Apartment Operations to New Heights | National ...

Operations and maintenance typically includes the day-to-day activities necessary for the building/built structure i, its systems and equipment, and occupants/users to perform their intended function. Operations and maintenance are combined into the common term O&M because a facility cannot operate at peak efficiency without being maintained; therefore the two are discussed as one.
