Adults often begin writing and realized that they don't remember all the rules they learned in Mrs. Peacock's 8th grade English class. Most adults in the workplace today have purchased -- on at least one occasion -- a writing guide. Grammar, style, punctuation, sentence structure and irregular verbs are all elements of grammar and style that we often just don't know anymore. And for anyone who has to communicate professionally -- whether a formal business presentation or a general improvement in their everyday conversational ability -- has gone to the bookstore to look for a grammar and style guide. Teach Yourself Grammar and Style in 24 Hours is a straightforward guide to everything from basic nouns and verbs to expressing clear thought in writing. Based on the proven Teach Yourself formula, the authors will construct 24 1-hour lessons on grammar and style that build sequentially. Since grammar and style work together, readers can see how one chapter affects the next as they progress. Best of all -- at \$17.99, readers can purchase one all inclusive grammar and style book for more coverage and a better price.

A staple for adults, students, and anyone who has ever been baffled by then to use a comma--and a serial comma--The Complete Idiot's Guide to Grammar and Style contains basic chapters on the parts of speech, gradually building up to the finer points of writing, sentence structure, punctuation, creating paragraphs, and following accepted publishing styles.

"HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.
