If necessary, the system administrator can configure you as a 'system phone' user. This allows you to perform a range of functions that help maintain your phone system. From the System Administration menu, you can do the following; • Checking the system and software version

System Administration - IP Office Knowledgebase
The Avaya one-X Mobile Preferred for IP Office is an application that works with the IP Office suite to provide enterprise communications on mobile devices. It is only supported on IP Office release 8.0 and is not supported by earlier releases. The application provides enterprise calling, messaging, voicemail, and conferencing.

Avaya one-X Mobile Administration Guide

10 4600 Series IP Telephone LAN Administrator Guide Sets that support both protocols, for example, the 4610SW, do not support each protocol simultaneously. Instead, a given telephone must be loaded with software that supports one protocol or the other. Telephones with H.323 software work only with Avaya Communication Manager call servers.
