Baxa repeater pump manual - Telegraph

This repeater pharmacy pump helps cut down on workload by automating fluid transfers accurately to volumes as low as 0.2 mL (± 10%) up to 9,999 mL at flow rates up to 13.5 mL per second. This repeater pump can efficiently support any size pharmacy thanks to the flexible range of fluid transfer capabilities and filling applications.

Baxter Repeater Pump - The Lab World Group

It takes spikes, syringes, and pumps to make an intravenous (IV) solution. A pharmacy workflow management system and automated compounding system can help streamline pharmacy operations. Though vastly different, these tools share a basic truth. Behind every IV dose there is a pharmacist and behind every pharmacist there is the means to not only make that dose, but also support pharmacy workflow.
