Book Critics Award winner). Staring unflinchingly into the abyss of slavery, *Beloved* transforms history into a story as powerful as *Exodus* and as intimate as a lullaby. This spellbinding novel tells the story of Sethe, a former slave who escapes to Ohio, but eighteen years later is still not free. In *The New York Times* bestselling novel, *The Bluest Eye*, Pecola Breedlove, a young black girl, prays every day for beauty and yearns for normalcy, for the blond hair and blue eyes, that she believes will allow her to finally fit in. Yet as her dream grows more fervent, her life slowly starts to disintegrate in the face of adversity and strife. With *Song of Solomon*, Morrison transfigures

Seminar paper from the year 2012 in the subject American Studies - Literature, grade: 1,3, University of Wuppertal, language: English, abstract: Beloved is a novel with many interesting themes which are worth examining. The following paper deals with the significance of numbers in Toni Morrison's Beloved. Numbers play an

important role in this novel. The novel was first published in 1987 and is a neo-slave narrative (cf. Palladino 54) written in free indirect discourse. It is about Sethe, a former slave, and her family. Sethe will not deal with her past and the trauma she has suffered during her time in Kentucky on the plantation "Sweet Home". She is hunted by the ghost of her baby that she has killed because she did not want her to become a slave. The ghost will only disappear after she has dealt with it and with her past. Numbers play an important role in *Beloved*. Morrison did not choose them by chance, they all have a meaning in the story of the novel. I want to show the significance they have – by some

numbers with reference to the Bible. First, there is an analysis of the overall structure and the numbers of the book, of the three parts and the chapters including the first sentence of all three parts (cf. chapter 2.1). Then the numbers which occur in the novel are examined (cf. chapter 2.2-2.9), after this analysis, there will be an examination of the dedication – which is also a number (cf. chapter 3). The end of the paper is composed of the conclusion in chapter

The evolving modern world is characterized by two opposing trends: integration and segregation. On the one hand, we witness strong forces for segregation on the basis of

nationality, ethnicity, religion, and culture in the former Soviet Union, the former Czechoslovakia, the former Yugoslavia, as well as in Northern Ireland, Spain, and Canada. These forces are quite strong and, in some cases, violent. On the other hand, the European Union and NAFTA represent the tendency for integration motivated primarily by economic considerations (such as gains from trade and scale economies). In fact, these opposing trends can be explained by the concepts developed in modern club theory, local public finance, and international trade.

Morrison's "Beloved": The Case for Reparations is an inspired contribution to the scholarship on one of the most influential American novels and novelists. The author positions this contemporary classic as a meditation on historical justice and re-comprehends it as both a formal tragedy— a generic translation of fiction and tragedy or a "novel-tragedy" (Kliger)—and a novel of objects. Its many things—literary, conceptual, linguistic— are viewed as vessels carrying the (hi)story and the political concerns. From this, a third conclusion is drawn: Fadem argues for a view of Beloved as a case for reparations. That status is founded on two outstanding object lessons: the character of

Beloved as embodiment of the subject-object relations defining the slave state and the grammatical object "weather" in the sentence "The rest is..." on the novel's final page. This intertextual reference places Beloved in a comparative link with Hamlet and Oresteia.

Fadem's research is meticulous in engaging the full spectrum of tragedy theory, much critical theory, and a full swathe of scholarship on the novel. Few critics take up the matter of reparations, still fewer the politics of genre, craft, and form. This scholar posits Morrison's tragedy as constituting a searing critique of modernity, as composed through meaningful intertextualities and as crafted by

profound “thingly” objects (Brown). Altogether, Fadem has divined a fascinating singular treatment of *Beloved* exploring the connections between form and craft together with critical historical and political implications. The book argues, finally, that this novel’s first concern is justice, and its chief aim to serve as a clarion call for material— and not merely symbolic—reparations.
