A short, easy to read story about Ben, a boy with Asperger Syndrome, and his friend Andy who find a mysterious old blue bottle buried in their school's garden. The simplistic art style, whilst not spectacular, fits well with the story. A tale about friendship, genies and being different. Thanks to NetGalley for the review copy.

Ben finds an unusual old bottle buried in the school yard, and in a roundabout way it helps Ben and his family find out what is causing some of the persistent problems he has both at home and at school.

This graphic novel re-telling of Kathy Hoopmann's best-selling Blue Bottle Mystery brings the much-loved fantasy story to life for a new generation of readers. The hero is Ben, a boy with Asperger Syndrome (AS). When Ben and his friend Andy find an old bottle in the school yard, little do they know of the surprises about to be unleashed in their lives. Bound up with this exciting mystery is the story of how Ben is diagnosed with AS and how he and his family deal with the problems and joys that come along with it.

When Tyler is chosen to present a going away gift to Jackson, Tyler becomes worried about being associated with Jackson in front of the other students since they all think Tyler is strange because he has Asperger's syndrome.

The sequel to Blue Bottle Mystery, this is a science fiction novel for kids, with a difference. Ben is learning to cope with his newly diagnosed Asperger Syndrome, but when an alien crash-lands in his back yard, things really get complicated. The alien, Zeke, knows nothing about Earth's rules and norms and it is up to Ben and

his friend Andy to help Zeke survive. The humorous parallels between the alien's inability to relate to humans and Ben's own idiosyncrasies highlight the difficulties Aspie kids face every day. Of Mice and Aliens is not just another kids' book. As well as being a delightful read for anyone who loves adventure, it is a valuable teaching tool that demystifies children with Asperger's, justifying their individuality as valid and interesting.

Based on dozens of intensive interviews with parents, clinical psychologists, teachers, and more, Melting down is the fictional and therapeutic story of Benjamin, a boy diagnosed with Asperger's disorder and additional challenging behavior. His tantrums are meltdowns that make regular schooling and day-to-day life impossible. Told from Benjamin's perspective, the story shows how the journey to hope in family life and education is possible.

'This book is the third in the series to feature Ben and Andy but this book focuses on a young girl called Lisa who has Asperger syndrome. As with the other Asperger adventures, the book explores features of Asperger syndrome. This book is aimed at the 9 - 12 age group and is suitable for both girls and boys, although girls might find it particularly good reading. This is my favourite of the three books in the series.' - Communication When Lisa discovers a derelict hut in her friend Ben's backyard, she delights in exploring the remnants of an era long gone. Imagine her surprise when Great Aunt Hannah moves into a nursing home nearby, and reveals that once she was a servant in those very rooms. The old lady draws Lisa into the art

of lace making and through the criss-crossing of threads, Lisa is helped to understand her own Asperger Syndrome. But Great Aunt Hannah also has a secret and now it is up to Lisa to confront the mysterious Lacemaker and put the past to rest.

All Cats Have Asperger Syndrome takes a playful look at Asperger Syndrome (AS), drawing inspiration from the feline world in a way that will strike a chord with all those who are familiar with AS. Delightful colour photographs of cats bring to life familiar characteristics such as sensitive hearing, scampering at the first sign of being stroked, and particular eating habits. Touching, humorous and insightful, this book evokes the difficulties and joys of raising a child who is different and leaves the reader with a sense of the dignity, individuality, and potential of people with AS. This engaging book is an ideal, gentle introduction to the world of AS. 'There is a great deal of truth in humour. If you have only just begun to discover why someone with Asperger's syndrome is different, this book will inform and entertain you. The descriptions provide an accurate balance between the qualities and difficulties associated with Asperger's syndrome, while the photographs will make the journey of discovery enjoyable and remarkable.' - Tony Attwood, author of Asperger's Syndrome and The Complete Guide to Asperger's Syndrome

most? This is the story of Lily Jane Watson, a 13-year-old in desperate need of some help from the spies at Mouseweb International Department 29 (MI29).

Operating out of the lost property cupboard at Abbotsford airport, Agent Windsor Smith and his family devise a clever plot to come to her rescue. But with Mr Clamp, the airport manager, laying traps and a crafty gang of rats attempting to scupper their plans, will MI29 succeed? Can technology, cunning, and courage change the world or will the nasty rats take control?

This action-packed story is perfect for children aged 8+, including those affected by illness or disability, and encourages community spirit and tolerance of diversity and difference.
