Bookkeeping is the process of keeping track of every financial transaction made by a business firm from the opening of the firm to the closing of the firm. Accounting analyzes, reviews, interprets, and reports financial information for the business firm. The accountant also prepares year-end financial statements and the proper accounts for the firm.

A Beginner's Tutorial to Bookkeeping

The book tries to cover too much ground in too simplistic a manner. The title suggests that it makes book-keeping easy. If it suggested making it understandable, that would be a different matter. It's not a bad dictionary of accounting terms. However, the idea that the book teaches you how to keep your accounts in a simple way is not correct.
