In this autobiographical novel, Albania's most renowned novelist and poet Ismail Kadare explores his relationship with his mother in a delicately wrought tale of home, family, creative aspirations, and personal and political freedom. "Houses like ours seemed constructed with the specific purpose of preserving coldness and misunderstanding for as long as possible." In his father's great stone house with hidden rooms and even a dungeon, Ismail grows up with his mother at the center of his universe. Fragile as a paper doll, she finds herself at odds with her tight-lipped and wise mother-in-law who, as is the custom for women of a certain age, will never again step foot over the threshold to leave her home. Young Ismail finds it difficult to understand his mother's tears, though he can understand her boredom. She told him the reason herself in a phrase that terrified and obsessed the boy: "The house is eating me up!" As Ismail explores his world, his mother becomes fearful of her intellectual son—he uses words she does not understand, writes radical poetry, falls in love far too easily, and seems to renounce everything she believes in. He will, she fears, have to exchange her for some other superior mother when he becomes a famous writer. *The Doll* is a delicate and disarming autobiographical novel, an exploration of Kadare's creative aspirations and their tangled connections to his childhood home and his mother's tenuous place within it.

Egypt in the twenty-sixth century BC. The young pharaoh Cheops wants to forgo the construction of a pyramid in his honor, but his court sages hasten to persuade him otherwise. The pyramid, they tell him, is not a tomb but a paradox, designed to appease the masses by oppressing them. It is a symbol of nothing, a useless and infinite project designed to waste the country's wealth and keep security and prosperity, ever the fonts of sedition, constantly at bay. And so the greatest pyramid in the world has ever seen begins to rise. Rumors multiply. A secret police is formed. Conspiracies—real and imagined—swirl around the rising edifice. The most drastic purges follow. By the time the first stone is laid, Cheops's subjects are terrified enough to yield to his most murderous whims. Each time one of the massive stones is hoisted into place, dozens of men are crushed, and there are tens of thousands of

June 28, 1389: Six hundred years before Serbian leader Slobodan Milosevic called for the repression of the Albanian majority in Kosovo, there took place, on the Field of the Blackbirds, a battle shrouded in legend. A coalition of Serbs, Albanian Catholics, Bosnians, and Romanians confronted and were defeated by the invading Ottoman army of the Sultan Murad. This battle established the Muslim foothold in Europe and became the centerpiece of Serbian nationalist ideology, justifying the campaign of ethnic cleansing of Albanian Kosovars that the world witnessed with horror at the end of the past century. In this eloquent and timely reflection on war, memory, and the destiny of two peoples, Ismail Kadare explores in fiction the legend and the consequences of that defeat. *Elegy for Kosovo* is a heartfelt yet clear-eyed lament for a land riven by hatreds as old as the Homeric epics and as young as the latest news broadcast.

Review During the bureaucratic machinery of Albania ' s 1945 – 1991 dictatorship, playwright Rudian Stefa is called in for questioning by the Party Committee. A girl—Linda B.—has been found dead, with a signed copy of his latest book in her possession. He soon learns that Linda ' s family, considered suspect, was exiled to a small town far from the capital. Under the influence of a paranoid regime, Rudian finds himself swept along on a surreal quest to discover what really happened to Linda B. “ At a time when parts of the world are indulging nostalgia for communism, Kadare ' s novel confronts the infuriating impossibility of art in an autocratic, anti – individualist system. ” —The Washington Post “ A Girl in Exile confirms Kadare to be the best writer at work today who remembers—almost aggressively so, refusing to forget—European totalitarianism. ” —The New Republic

In the mid-1930s, two Irish Americans travel to the Albanian highlands with an early model of a marvelous invention, the tape recorder. Their mission? To discover how Homer could have composed works as brilliant and as long as The Iliad and The Odyssey without ever putting pen to paper. The answer, they believe, can be found only in Albania, the last remaining habitat of the oral epic. But immediately upon their arrival, the scholars ' seemingly arcane research excites suspicion and puts them at the center of ethnic strife in the Balkans. Mistaken for foreign spies, they are placed under surveillance and are dogged by gossip and intrigue. It isn ' t until a fierce-eyed monk from the Serbian side of the mountains makes his appearance that the scholars glimpse the full political import of their search for the key to the Homeric question.
