it contains CGL and CHSL papers Maths part. There are 57 Sets(SSC CGL TIER-1 (21 Sets) Held between 13/08/2021-24/08/2021 and SSC CHSL TIER-1 (36 Sets) Held between 12/04/2021-12/08/2021

Math problem solving activities.

For B.Sc 2nd year students of all Indian Universities. The book has been prepared keeping view the syllabi prepared by different universities on the basis of Model UGC Curriculum. A large number of illustrations, pictures and interesting examples have been provided to make the reading interesting and understandable. The question that have been provided in the Exercise are in tune with the latest pattern of examination.

This introductory textbook grew out of several courses in linear algebra given over more than a decade and includes such helpful material as constructive discussions about the motivation of fundamental concepts, many worked-out problems in each chapter, and topics rarely covered in typical linear algebra textbooks. The authors use abstract notions and arguments to give the complete proof of the Jordan canonical form and, more generally, the rational canonical form of square matrices over fields. They also provide the notion of tensor products of vector spaces and linear transformations. Matrices are treated in depth, with coverage of the stability of matrix iterations, the eigenvalue properties of linear transformations in inner product spaces,

singular value decomposition, and min-max characterizations of Hermitian matrices and nonnegative irreducible matrices. The authors show the many topics and tools encompassed by modern linear algebra to emphasize its relationship to other areas of mathematics. The text is intended for advanced undergraduate students. Beginning graduate students seeking an introduction to the subject will also find it of interest.

Algebra > Functions And Relations > Congruence Of Integers > Some Special Types Of Matrices > Elementary Operations And Inverse Of A Matrix > Linear Dependence Of Vectors > Rank Of A Matrix > Linear Equations > Characteristic Roots Of Vectors > Theory Of Equations
