It could be any type of file that just has an incorrect extension.

The extension of a file can be misleading since its simply part of the name of the file. If you take an ".gif" file and rename it to ".doc" your operating system can be confused on which application should open the document.

author Alexandre

Dumas. It is one of the author's most popular works, along with *The Three Musketeers*. Like many of his novels, it is expanded from plot outlines suggested by his collaborating ghostwriter Auguste Maquet. The story takes place in France, Italy and islands in the
