This publication is the third in a series of annual reports giving a comparative analysis of business regulations and their enforcement across 155 countries and over time. Comparable data indicators are given for 10 topics: starting a business, dealing with licences, hiring and firing workers, registering property, getting credit, investment protection, paying taxes, trading across borders, enforcing contracts, and closing a business. These indicators are used to assess socio-economic outcomes including levels of unemployment and poverty, productivity, investment and corruption; and to identify which regulatory measures enhance business activity and those that work to constrain it. This is a co-publication of the World Bank and the International Finance Corporation.

This book covers the new professional courses prescribed by the Institute of Cost and Management Accountants (ICAP), Institute of Chartered Accountants of Pakistan (ICAP), Pakistan Institute of Public Finance Accountants (PIPFA) and other courses in commerce, business and public administration disciplines.

The book has been primarily designed for the students of C.A. Foundation course for the subject Business Laws. Written in concise and self-explanatory style, this book provides conceptual knowledge and understanding of various acts, such as, The Indian Contract Act, 1872; The Sale of Goods Act, 1930; The Indian Partnership Act, 1932. Further, chapters on The Limited Liability Partnership Act, 2008 and The Companies Act, 2013, have also been incorporated in the book keeping in view the new syllabus.

Starting in 1947, this volume examines the way Pakistani judges have dealt with the controversial issue of Islam in the past 50 years. The book's focus on reported case-law offers a new perspective on the Islamisation of Pakistan's legal system in which Islam emerges as more than just a challenge to Western conceptions of human rights.
