This revision of a best selling research methods textbook introduces social science methods as applied broadly to the study of issues that arise as part of organizational life. These include issues involving organizational participants such as managers, teachers, customers, patients and clients, and transactions within and between organizations. In this new edition, chapter 19 now focuses on describing the modeling process and outcomes. An entirely new chapter 20 now addresses challenges to modeling. It goes substantially beyond a discussion of statistical inference. It also discusses issues in interpreting variance, explained estimates, and standardized and unstandardized regression coefficients. A new capstone chapter 21 helps students recognize good research. This textbook is accompanied by an Instructor's Manual for course use.

Business research methods will serve as a text book on marketing research for students pursuing courses in management and commerce. The main focus is on the Indian context. Various analytical tools used in research methods are given along with exhaustive coverage and illustrations. Assignments are included in various chapters to help in acquiring in-depth subject knowledge and application orientation. The book contains 7 sections divided into 23 chapters. Case studies are included which will help to develop analytical skills. SPSS application has been described wherever necessary. The book can be of great help to MBA, PGDBM, MMS, BBA and Commerce students.

Business Research Methods 14e contains stand-alone chapters that reflect research industry practices using real examples from all areas of business. In collaborations with over two dozen industry researchers, Schindler writes a real-world research methods book that distinguishes between big data analytics and small data with an emphasis on decision making. She eloquently covers ethical issues and their solutions, and has added more coverage of process models, sampling how to, and data preparation. Conscious of the different learning styles of students, Schindler provides appropriate cues for both visual and verbal learners through the use of in-text exhibits, bolded key terms, conceptual photos throughout and research thought-leader quotes in PowerPoints for each chapter. She also used various interim GreenBook Research Industry Trends (GRIT) reports to guide the research for this revision. The latest GRIT Report is based on the largest study of research suppliers and users ever conducted. Automation and privacy are hot topics in GRIT, so she added material on both these topics in the 14th edition. This edition is available for purchase with the digital platform Connect, which provides a highly reliable easy-to-use homework and learning management solution that embeds learning science and award-winning adaptive tools to improve student results
