Computer Applications in Engineering Education

□ Use software application packages skillfully and intelligently for producing structured educational material for use in several subjects which are their core and methodology papers. □ Demonstrate an understanding of how one can communicate with a computer online for sources of information, as well as with other people using a network.

Computers in Education - WikiEduicator

I sometimes wonder why there is debate on the effectiveness of technology in education. The whole point of a debate is to examine issues in such a way that decisions can be made. However, in this case, we can hardly say, "Remove all technology from education!" Or, "Don't add any more because we are not getting an adequate return on our current investment--technology is not improving the ...
