Crescent Dawn - Wikipedia

Clive Cussler has written another fast-paced adventure with "Crescent Dawn". In 327 AD, a Roman galley is sunk by pirates. The galley contained a cargo that, throughout the course of this book, will baffle both Dirk Pitt, head of NUMA, and Ozden and Maria Celik, terrorists who are interested in recovering items from the galley for political gain.

Deep sea explorer and NUMA director Dirk Pitt encounters the last direct descendants of the Ottoman dynasty as they prepar to incite a revolution in this novel in the #1 New York Times-bestselling series. In a.d. 327, a Roman galley with an extraordinary cargo barely escapes a pirate attack. In 1916, a British warship mysteriously explodes in the middle of the North Sea. In the present day, a cluster of important mosques in Turkey and Egypt are wracked by explosions. What ties them all together? NUMA director Dirk Pitt and his team are about to find out, as Roman artifacts discovered in Turkey and Israel unneringly connect to the rise of a fundamentalist movement determined to restore the glory of the Ottoman Empire. From Washington to London to the treacherous shores of the Near East, dangerous men and desperat acts fill their path, and at the end of it, the most dangerous thing of all: the rumored existence of a mysterious “manifest,” lost long ago, which if discovered again could shed new light on early Christianity and just might change the history of the world as we know it. Filled with breathtaking suspense and extraordinary imagination, Crescent Dawn is further proof that when it comes to adventure writing, nobody beats Clive Cussler.

Oceanic explorers Dirk Pitt and Al Giordino find intrigue, adventure, and peril while collecting clues to the mysterious treasure of Xanadu, the famed capital of Kublai Khan’s empire. When Dirk Pitt is nearly killed rescuing an oil survey team from a freak wave on Russia’s Lake Baikal, it appears a simple act of nature. But when the survey team is abducted and Pitt’s research vessel nearly sunk, it becomes clear this is no run of bad luck, but the influence of something, or someone, more sinister. In fact, Pitt and the NUMA crew have inadvertently stepped between a Mongolian tycoon and his plans to corner the global oil market, beginning with covert negotiations in China. To ensure the deal goes through, this mysterious businessman will encourage ever-escalating acts of sabotage and violence. Pitt and Giordino soon learn the magnate’s fury and his power both stem from the same source: a dark secret about Genghis Khan, the greatest conqueror the world has ever known. To Pitt and Giordino the famed Khan’s empire is nearly the stuff of legend and his tomb a forgotten mystery. But the Khan’s legacy is very real. And it’s the treasure of his grandson Kublai Khan that holds the key to stopping this modern-day oil baron from restoring the conquests of his ancestors. That is, if Pitt and Giordino get there first...

In this adventure in the #1 New York Times bestselling series, oceanographer Dirk Pitt is back to find a crucial piece of marine tech that could reshape the United States' defense program... It is the greatest advance in American defense technology in decades—an attack submarine capable of incredible underwater speeds. There is only one problem: A key element of the prototype is missing—and the man who developed it is dead. At the same time, ships have started vanishing mid-ocean, and when a few reappear, bodies are found aboard burned to a crisp. Could these mysterious events be connected to an Italian submarine that itself disappeared in 1943? It is up to NUMA director Dirk Pitt and his team, aided by a beautiful NCIS agent and by Pitt's children, marine engineer Dirk and oceanographer Summer, to go on a desperate international chase to find the truth, from Washington to Mexico, Idaho to Panama. What they discover at the end of it is a much, much greater threat than even they imagined. Filled with breathtaking suspense and extraordinary imagination, Poseidon's Arrow is further proof that when it comes to adventure writing, nobody beats Clive Cussler.

Second in a two-book saga. Bronwyn McGregor has known the depths of heartache. Having lost the man she'd loved since childhood and the child their great love created, she has thrown herself into her work as a psychologist, determined to help those who cannot help themselves. The last thing on her mind is finding romance among the criminally insane at Baybridge Sanitarium. From a seething cauldron of evil, Viraidan Cree was created in the frigid winds of space. Dredged up from a bog in the wilds of Ireland where he has spent centuries of unlife, he is a Reaper, a warrior among warriors, a being so lethal, so dangerous he cannot be controlled. Yet lurking within the reborn warrior is the spirit of a dead man whose love has survived against all odds. Given the job to secure the safety of those who work at Baybridge, Cree takes one look at Bronwyn and vows to make her his own. But the NightWind Danyon Hart is listening to the Reaper's deep desires. He too has his sights set on Bronwyn and will allow no one to get in his way...especially not a Reaper! Note: We recommend reading BlackWind: Sean and Bronwyn before reading BlackWind: Viraiden and Bronwyn. This story is not for the faint of heart.

When NUMA team leader Kurt Austin finds his own memories of a dangerous mission aren't to be trusted, he must follow a trail of mysterious disappearances to the truth in this novel in the #1 New York Times-bestselling series. After a narrow escape during a perilous rescue operation to save the passengers and crew from a sinking yacht, Marine adventurer Kurt Austin awakens with fragmented and conflicting memories. Did he see an old friend and her children drown, or was the yacht abandoned when he came aboard? For reasons he cannot explain, Kurt doesn't trust either version of his recollection. Determined to know the fate of his friend, he begins to search for answers, and soon finds himself descending into a shadowy world of state-sponsored cybercrime, and uncovering a pattern of vanishing scientists, suspicious accidents, and a web of human trafficking. With the help of fellow NUMA operative Joe Zavala, he takes on the sinister organization at the heart of this web, facing off with them in locations ranging from Monaco to North Korea to the rugged coasts of Madagascar. But where he will ultimately end up even he could not begin to guess.

Clive Cussler's New York Times bestselling Blue Gold, now available in ebook, is a heart-pounding thriller in the NUMA adventure series. Kurt Austin navigates the Amazon jungle in search of a legend that could change the path of science—but secretive powers will do anything to stop him. From deep within the Venezuelan rain forest emanates the legend of a white goddess and a mysterious tribe with startling technical accomplishments. Few believe the tribe exists—and even fewer suspect its deity may hold knowledge that can change the course of history. For National Underwater & Marine Agency crew leader Kurt Austin, an investigation into the sudden deaths of rare whales leads him to the Mexican coast, where someone tries to put him and his mini-sub permanently out of commission. Meanwhile, in South America's lush hills, a specially assigned NUMA crew turns up the white-goddess legend—and a murderous cadre of bio-pirates intent on stealing medicinal secrets worth millions. Soon Austin and his crew realize they're working the opposite ends of the same grand scheme. A billionaire California tycoon is poised to rise to power by monopolizing the earth's vastly depleted freshwater reserves and ultimately dominate the world. Austin has a hunch Venezuela's mythical tribal goddess has some real roots in science, and may be the key to locating a secret formula that could turn vast amounts of seawater into fresh. But with each step into the bush, he and his NUMA team feel like fish out of water—and must fight a deadly, twisting trail of enemies through a dense jungle of treachery, blackmail, and murder.

The world's oil supply is vanishing, the stock market is plummeting, and the key to saving the future seems to be a baffling historical mystery. Can the NUMA crew crack it in time? Sea of Greed is the suspenseful new NUMA Files novels from the #1 New York Times-bestselling grand master of adventure. After an explosion in the Gulf of Mexico destroys three oil rigs trying to revive a dying field, Kurt Austin and the NUMA Special Projects Team are tapped by the President of the United States to find out what's gone wrong. The trail leads them to a brilliant billionaire in the alternative energy field. Her goal is the end of the oil age; her company has spent billions developing the worlds' most advanced fuel-cell systems. But is she an environmental hero...or a rogue genetic engineer? The NUMA crew discovers that the oil fields are infected with bacteria that are consuming the oil before it can be pumped out of the earth--a bacteria originally lost decades ago when two submarines vanished in the Mediterranean. With hired killers on his trail, can Kurt Austin locate a submarine that's remained hidden for more than fifty years? And even if he can, can the biological terror that's been unleashed be stopped?

Detective Isaac Bell tracks a killer across the nation's oilfields in this adventure in the #1 New York Times–bestselling historical series. As Van Dorn private detective Isaac Bell strives to land a government contract to investigate John D. Rockefeller's Standard Oil monopoly, the case takes a deadly turn. A sniper begins murdering opponents of Standard Oil, and soon the assassin—shooting with extraordinary accuracy at seemingly impossible long range—kills Bell's best witness. Then the shooter detonates a terrible explosion that sets the victim's independent refinery ablaze. Bell summons his best detectives to hunt down the mysterious killer. But the murders—shootings, poisonings, staged accidents—have just begun as Bell tracks his phantom-like criminal adversary from the “oil fever” regions of Kansas and Texas to Washington, D.C., to the tycoons' enclave of New York, to Russia's war-torn Baku oil fields on the Caspian Sea, and back to America for a final, desperate confrontation. And this one will be the most explosive of all.
