Dark Days is the sequel to Apocalypse Z: The Beginning of the End. It picks up immediately from where the first books ends and plunges you straight into the action. I've read a lot of Zombie fiction but what I like most about these books is that they are set in Spain and view a worldwide zombie plague from a fresh European perspective instead of the gun-toting tired old American type.

Dark Days is the second book in the Apocalypse Z series. I never read the first book but it was easy to quickly piece together the whole story. I picked up this book because one of my current obsessions is ...zombies. Well I did get zombies but not as much as I expected. I was expecting the zombies to be gruesome and in your face. They were not.

Life expectancy is a shadow of what it was and many diseases and ailments that science thought it had eradicated have returned. Many of those who survived the war have since died, taking with them the stories and memories of the most devastating and important struggle that mankind has ever waged. 5 out of 5 stars.

Dark Days Audiobook | Manel Loureiro, Pamela Carmell ...

Book 1. A mysterious incident in Russia, a blip buried in the news - it's the only warning humanity receives that civilization will soon be destroyed by a single, voracious virus that creates monsters of men. A lawyer, still grieving over the death of his young wife, begins to write as a form of therapy.

As the rules of civilization crumble, a lawyer, a pilot, and a nurse become comrades-in-arms in the fight against extinction.

A group of survivors find sanctuary from the zombie plague in Gulfport, Mississippi, but the price of

safety is subservience to a fascist dictator and his brutal enforcers.

While writing a blog as therapy to grieve his wife's death, a lawyer unknowingly records the last days of humanity in a world where governments are scrambling to create safe zones and chaos reigns.

In this post-apocalyptic novel from Newbery Medal-winning author Robert C. O'Brien, a teen girl struggling to survive in the wake of unimaginable disaster comes across another survivor. Ann Burden is sixteen years old and completely alone. The world as she once knew it is gone, ravaged by a nuclear war that has taken everyone from her. For the past year, she has lived in a remote valley with no evidence of any other survivors. But the smoke from a distant campfire shatters Ann's solitude. Someone else is still alive and making his way toward the valley. Who is this man? What does he want? Can he be trusted? Both excited and terrified, Ann soon realizes there may be worse things than being the last person on Earth.

A lawyer, Katie, and a housewife, Jenni, are thrown together by circumstance and find themselves fleeing for their lives when a horde of zombies takes over the world.

After a tragic car accident shatters her body and mind, Cassandra struggles to piece together her life as a respected psychiatrist and devoted mother. But the accident has changed her. Her eyes have been opened to horrors she never knew existed. Is her family really under attack, or is it all in her mind? While Cassandra tries to prove the feeling of being stalked, her police-investigator husband, Daniel, hunts a killer of his own. As both the body count and Cassandra's hysteria rise, Daniel becomes obsessed with the case and suspicious of Cassandra's part in it. Afraid of losing her increasingly fragile grip on reality, Cassandra plunges into a search for answers that may come at the cost of her sanity. Racing to a shattering confrontation with an evil she can barely comprehend, Cassandra must decide: How far will she go, what darkness will she embrace, to save those she loves?

Inside these pages lies unspeakable horror. Bloodsplattering, brain-impaling, flesh-devouring horror. You've probably read your fair share of zombie stories. But this time it's different. No longer can you sit idle as a bunch of fools make all the wrong moves. All hell is about to break loose—and YOU have a say in humanity's survival. You have choices to make. Moral dilemmas. Strategic decisions. Weapons. Vehicles. Will you be a hero? Or will you cover your own ass at all costs? Can you withstand the coming hours, days, weeks, and months? Or will you die amidst the chaos and violence of a zombie uprising? Or, worst of all, will you become one of them?

Reporter Kate Kilroy accepts an assignment to travel on the Valkyrie, a German ship veiled in secrecy for decades after it was discovered adrift in 1939 with only one passenger aboard, a baby boy named Isaac Feldman. Obsessed with understanding his origins, Feldman has spent a small fortune restoring the Valkyrie to try to solve the mystery. Assembling a team of experts and sparing no expense, he aims to precisely recreate the circumstances of the Valkyrie's doomed final voyage. Little does Feldman or his team know that the ship has an agenda of its own. As the Valkyrie begins to weave its deadly web, Kate realizes that she must not only save herself, but the world as she knows it.

Starting with a father whose son has been asking questions about global dangers, *A Is for Asteroids, Z Is for Zombies* takes us inside our worst fears, laughing at some and taking others seriously. With macabre verse and fantastically gory illustrations, it provides gallows humor for our doom-haunted times.

A NEW YORK TIMES NOTABLE BOOK It is 1901 and Buffalo, New York, stands at the center of the nation's attention as a place of immense wealth and sophistication. The massive hydroelectric power development at nearby Niagara Falls and the grand Pan-American Exposition promise to bring the Great Lakes "city of light" even more repute. Against this rich historical backdrop lives Louisa Barrett, the attractive, articulate headmistress of the Macaulay School for Girls. Protected by its powerful all-male board, "Miss Barrett" is treated as an equal by the men who control the life of the city. Lulled by her unique relationship with these titans of business, Louisa feels secure in her position, until a mysterious death at the power plant triggers a sequence of events that forces her to return to a past she has struggled to conceal, and to question everything and everyone she holds dear. Both observer and participant, Louisa Barrett guides the reader through the culture and conflicts of a time and place where immigrant factory workers and nature conservationists protest violently against industrialists, where presidents broker politics, where wealthy "Negroes" fight for recognition and equality, and where women struggle to thrive in a system that allows them little freedom. Wrought with remarkable depth and intelligence, *City of Light* remains a work completely of its own era, and of ours as well. A stirring literary accomplishment, Lauren Belfer's first novel marks the debut of a fresh voice for the new millennium and heralds a major publishing event.
