The two-volume set LNCS 10132 and 10133 constitutes the thoroughly refereed proceedings of the 23rd International Conference on Multimedia Modeling, MMM 2017, held in Reykjavik, Iceland, in January 2017. Of the 149 full papers submitted, 36 were selected for oral presentation and 33 for poster presentation; of the 34 special session papers submitted, 24 were selected for oral presentation and 2 for poster presentation; in addition, 5 demonstrations were accepted from 8 submissions, and all 7 submissions to VBS 2017. All papers presented were carefully reviewed and selected from 198 submissions. MMM is a leading international conference for researchers and industry practitioners for sharing new ideas, original research results and practical development experiences from all MMM related areas, broadly falling into three categories: multimedia content analysis; multimedia signal processing and communications; and multimedia applications and services.

This heart-wrenching and triumphant love story is a tale of advocacy and caregiving. Donna's husband, David, stumbled into their bedroom, his hand covering a blood-filled eye from a brain hemorrhage. Donna called 9-1-1. David slipped into a coma. At that moment, Donna was thrust onto the path of caregiver for her best friend and the love of her life. In her debut memoir, Donna shares how a neurosurgeon said that David would make a "great organ donor." She writes of arrogant doctors, uncaring visitors, insensitive ambulance drivers, and problematic nurses. She also tells of the many compassionate doctors, nurses, therapists, staff, strangers, family members, and friends who helped them on their journey. Donna compellingly describes her ability to appear positive as she experiences the horror of making life-or-death decisions. As her world crashes, she credits laughter as her lifesaver. More than thirteen years later, Donna and David are living a "new normal" together.

One of the few books that addresses financial and managerial accounting within the three major areas of the public sector--government, health, and not-for-profit--the Second Edition provides the fundamentals of financial management for those pursuing careers within these fields. KEY TOPICS: " With a unique presentation that explains the rules specific to the public sector, this book outlines the framework for readers to access and apply financial information more effectively. Employing an engaging and user-friendly approach, this book clearly defines essential vocabulary, concepts, methods, and basic tools of financial management and financial analysis that are imperative to achieving success in the field. This book is intended for financial managers and general managers who are required to obtain, understand, and use accounting information to improve the financial results of their organizations, specifically within the areas of government or public policy and management, not-for-profit management, and health policy and management.
