There is no democracy in America apart from the multitude of struggles to bring in those who were previously excluded from political power by the system's very design. In other words, to speak of democracy in America is to recognize the slow and uneven process of democratizing what was originally an oligarchic, settler colonial, slaveholding republic — a political project that remains incomplete to this day.

~~The Struggle for Democracy in America Has Been One ...~~

India and the United States are not alone in their drift from the ideals of liberal democracy. They are part of a global phenomenon in which freely elected leaders distance themselves from traditional elites and political norms, claim to speak for a more authentic popular base, and use the ensuing confrontations to justify extreme policies—against minorities and pluralism in particular.

Spanning three centuries and two continents, Lord Cornwallis Is Dead offers a new look at the struggle for freedom that linked two nations. While the United States remains the world's most powerful democracy, India—the world's most populous democracy—is growing in wealth and influence. Together, the United States and India will play a predominant role in shaping the future of democracy.

~~Democracy, States, and the Struggle for Global Justice by ...~~

In the past six years, the defence of democracy and protecting the rights given under the Constitution have become a central focus of our struggle. The class character of the State is such that parliamentary democracy becomes more and more a playground for big business, the rural rich and predatory capitalist elements.
