variety of reasons, including for online exhibitions and for the online catalog. The first step in the process of digitizing Library collection materials is to review the following considerations:

Preservation Guidelines for Digitizing Library Materials ...

Digitization is the process of converting information into a digital (i.e. computer-readable) format, in which the information is organized into bits. The result is the representation of an object, image, sound, document or signal (usually an analog signal) by generating a series of numbers that describe a discrete set of points or samples. The result is called digital representation or, more
