Shipping document

sets are used to run

and print a

File Type PDF Document Set

standard/customized report at the end of picking/shipping.

Steps of the processes are given below

1. Decide the report needs to be run after the pick release/shipment. If required then develop a customized report.
2. Create a new document set and select the appropriate

File Type PDF Document Set usage – Ship Apps confirm/Pick Release

Shipping Document
Sets | OracleUG
You can set the OE:
Default Picking
Document Set profile
option to specify a
default value for the
Document Set field in
the Release Sales
Orders For Picking
window. See: Order

File Type PDF Document Set

Entry/Shipping Profile
Options.

Prerequisites. Assign
printers to your
shipping documents.

See Choosing
Printers for Shipping
Documents. To define
document sets: 1.

Navigate to the
Shipping Document
Sets window. 2. Enter
a name for a new
document set. 3.

Defining Document
Sets (Oracle Order
Entry / Shipping ...

A document
sequence uniquely
numbers documents
generated by an
Oracle E-Business
Suite product. Using
Oracle E-Business
Suite, you initiate a
transaction by
entering data through

File Type PDF Document Set

a form and generating a document, for example, an invoice.

A document sequence generates an audit trail that identifies the application that created the transaction, for example, Oracle Receivables, and the original document that was generated, for

File Type PDF Document Set example, invoice number 1234.

ORACLE APPS

COMMUNITY

Document sets can be printed from either the Confirm Shipment window (Ship Confirm Document set which is shown in this post) or the Release Sales Orders window (Pick Release document set). Oracle Order

File Type PDF Document Set Entry/Shipping Apps

provides three predefined document sets: Pick Release Documents for use on the Release Sales Orders window, and All Shipping Documents and Pack Slip Only for use on the Confirm Shipment window.
