A document type definition is a set of markup declarations that define a document type for an SGML-family markup language. A DTD defines the valid building blocks of an XML document. It defines the

Read PDF Document Typer

document structure with a list of validated elements and attributes. A DTD can be declared inline inside an XML document, or as an external reference. XML uses a subset of SGML DTD. As of 2009, newer XML namespace-aware schema languages have largely
