For sure, you've heard a lot about selling physical products on Amazon lately. But why Amazon? Simply because it's the biggest online store to ever have been - and probably that will ever be - created! If you're interested in e-commerce, Amazon is the right place for you. Another often-overlooked reason to sell on Amazon is its Prime clients. When you let Amazon handle the shipping, your products become eligible to be sold to millions of Amazon Prime clients that will receive any order of any size in just 2 days. So if you're asking yourself "Should I sell there?" the answer is YES! "But aren't there tons of competitors?" Yes, but IT'S NOT IMPORTANT! By opening its platform to third-party sellers, Amazon immediately created one of the biggest opportunities ever for entrepreneurs: it opened its store on its pages, selling to over 225 million clients! There are different ways you can sell on Amazon, but probably selling products with the distributor's own label is by far the best method to reach success. You're basically creating a brand with private labelling of a product that already sells well on Amazon. This not only makes you avoid having to reinvent the wheel, trying to create and market something new, but also making you compete for the "buy box". When you create your own brand, you distinguish yourself by being the only seller offering your product. This way you can keep all your profits, 100% of the time! The aim is to find a product, create a brand and sell more products in different countries that buy from Amazon. This book will guide you through the fundamentals of Amazon FBA. You will learn: - What Amazon FBA is - What are and how to use the algorithms - What the best market strategy is - Time is money - Finding products - Getting clicks ...and more! But wait, it's not over yet! You have another possibility to make big money. Have you decided to start your online activity by selling products? Shopify is the solution. If you're interested in selling any-size products or any services, Shopify is the simplest platform to build your ecommerce. We will now see how to use the Shopify platform in the following chapters: - What Shopify is - Maximize your profit - Shipping fees - Get the right Shopify key word - Backlink Shopify - Steps to build your online shop - Strategies for the correct pricing ...and much more! The term "e-commerce" was coined to indicate any sort of online transaction. E-commerce is a great way to find products straight from home. Shopify has grown significantly since its launch in 2006. The greatest thing about it is that you don't need to own a company to use this resource. You can sell things from home, if you wish. This makes Shopify a great way to sell what you make.
