physician who stood up to power. “ Stirring . . . [a] blueprint for all those who believe . . . that ‘ the world . . . should be full of people raising their voices. ’ ” —The New York Times “ Revealing, with the gripping intrigue of a Grisham thriller. ” —O: The Oprah Magazine Here is the inspiring story of how Dr. Mona Hanna-Attisha, alongside a team of researchers, parents, friends, and community leaders, discovered that the children of Flint, Michigan, were being exposed to lead in their tap water—and then battled her own government and a brutal backlash to expose that truth to the world. Paced like a scientific thriller, *What the Eyes Don ’ t See* reveals how misguided austerity policies, broken democracy, and callous bureaucratic indifference placed an entire city at risk. And at the center of the story is Dr. Mona herself—an immigrant, doctor, scientist, and mother whose family ’ s activist roots inspired her pursuit of justice. *What the Eyes Don ’ t See* is a riveting account of a shameful disaster that became a tale of hope, the story of a city on the ropes that came together to fight for justice, self-determination, and the right to build a better world for their—and all of our—children. Praise for *What the Eyes Don ’ t See* “ It is one thing to point out a problem. It is another thing altogether to step up and work to fix it. Mona Hanna-Attisha is a true American hero. ” —Erin Brockovich “ A clarion call to live a life of purpose. ” —The Washington Post “ Gripping . . . entertaining . . . Her book has power precisely because she takes the events she recounts so personally. . . . Moral outrage present on every page. ” —The New York Times Book Review “ Personal and emotional. . . She vividly describes the effects of lead poisoning on her young patients. . . . She is at her best when recounting the detective work she undertook after a tip-off about lead levels from a friend. . . . Flint will not be defined by this crisis, ’ vows Ms. Hanna-Attisha. ” —The Economist “ Flint is a public health disaster. But it was Dr. Mona, this caring, tough pediatrician turned detective, who cracked the case. ” —Rachel Maddow

This multi-volume set is a primary source for basic company and industry information. Names, addresses, SIC code, and geographic location of over 135,000 U.S. companies are included.

This book gathers reflections from 15 US based feminist social scientists about gender – as orienting framework, as one aspect of an intersectional approach, as a feature of intellectual identity, and as a problematic construct. Gender as an analytic, dynamic concept has had an important impact within and across social sciences in the past several decades. That impact for some arose in dialogue with interdisciplinary women ' s studies, and was sometimes troubled both in women ' s studies and in relation to other interdisciplines and disciplines. As a new generation of gender scholars embarks on their careers in social science, Fenstermaker and Stewart's collection provides scholars an opportunity to reflect on the course of different disciplinary histories and autobiographies, as well as illuminate individual scholarly craft and disciplinary direction as our understanding of gender has unfolded over time. The volume will also represent one kind of collective wisdom to inspire younger scholars.
