Enhanced AN/TPQ-36 (EQ-36) Radar System

Project L88, Enhanced AN/TPQ-36 (EQ-36), is a highly mobile radar system that will leverage the latest in technology design to accelerate technology infusion and increase range while improving False Alarm Rate, reducing obsolescence and increasing reliability.

Enhanced An Tpq 36 Eq 36 Radar System Dot E Dote Osd

Enhanced AN/TPQ-36 radar, known as the EQ-36 Counterfire Target Acquisition Radar. In January 2007 Lockheed Martin was selected as prime contractor of on this program.

Enhanced An Tpq 36 Eq 36 Radar System Dot E Dote Osd

05/27/2008. Lockheed Martin [LMT] said it recently completed a successful Critical Design Review (CDR) for the Enhanced AN/TPQ-36 counter-fire target acquisition (EQ-36) radar. The on-schedule completion of this final design step clears the way for the program to move into an initial production phase for five radar systems.

Lockheed Martin Enhanced EQ-36 Radar Ready For LRIP

Hughes AN/TPQ-36 Firefinder weapon locating system is a mobile radar system developed in the mid-late 1970s by Hughes Aircraft Company and manufactured by Northrop Grumman and ThalesRaytheonSystems, achieving initial operational capability in May, 1982. The system is a "weapon-locating radar", designed to detect and track incoming mortar, artillery and rocket fire to determine the point of ...

AN/TPQ-36 Firefinder radar - Wikipedia

One of the major displays by Lockheed Martin was an operational prototype of the U.S. Army ' s new Enhanced AN/TPQ-36 radar, known as the EQ-36 Counterfire Target Acquisition Radar. In January 2007 Lockheed Martin was selected as prime contractor of on this program. EQ-36 will be able to detect, classify, track and determine the location of enemy indirect fire such as mortars, artillery and rockets in either 90 degree or 360 degree modes.

EQ-36 Counterfire Target Acquisition Radar

A. Mission Description and Budget Item Justification: The Enhanced AN/TPQ-36 (EQ-36) is a highly mobile radar system designed to classify targets for automatic first-round location of mortar, cannon and rocket enemy fires and to provide observed fires from friendly units. The EQ-36 will provide 90 and 360 degree coverage against the

ARMY RDT&E BUDGET ITEM JUSTIFICATION (R2 Exhibit) May 2009

The " Enhanced AN/TPQ-36 (EQ-36) Radar System " is included. The Army conducted 3 Live Ammunition System Demonstration (LASD) radar test events at Yuma Proving Ground, Arizona, in October 2010, January 2011, and June 2011. Unfortunately, the DOT&E office reports that the systems had problems with reliability and accuracy:

The company will provide the Army with five Enhanced AN/TPQ-36 radars within 36 months. The first two systems will be delivered to the Army by summer 2009; the third and fourth by fall 2009, and ...

LOCKHEED MARTIN UNVEILS OPERATIONAL PROTOTYPE OF U.S. ARMY...

eq-36 During September 2006, Lockheed Martin announced a \$120 million (Rs. 540 crore) contract to provide the US Army with five Enhanced AN/TPQ-36 radars, otherwise known as the EQ-36 Counter fire Target Acquisition Radar.

EQ-36, weapon-locating radars

The US Army has received the first Non-Recurring Engineering Enhanced AN/TPQ-36 Counterfire Target Acquisition (EQ-36) radar system from Lockheed Martin. A live-fire performance testing of the radar system was conducted at the army ' s Yuma Proving Ground in Arizona. The radar was verified against indirect fire from mortars, artillery and rockets.

US Army Receives First Lockheed EQ-36 Radar System

April 9, 2012: As the U.S. Army replaces its older AN PQ-36/37 FireFinder artillery spotting radar systems with the new and improved Enhanced AN/TPQ-36/37, EQ-36, someone noted that the similarity in the designations for the two systems sometimes caused confusion. It was also noted that the EQ-36 was actually a new design, not an enhanced version of the older one.

Artillery: Son Of FireFinder Goes To War

The EQ-36 program has been under way since January 2007, following Lockheed Martin's contract award of approximately \$120 million by the Army's Program Executive Officer-Intelligence, Electronic Warfare & Sensors (PEO- IEW&S). The company will provide the Army with five Enhanced AN/TPQ-36 radars within 36 months.

Lockheed Martin Unveils Operational Prototype of U.S. Army...

According to the SOO, the EQ-36 system --shall provide increased capability over the existing AN/TPQ-36 (V) 8, including 360 degree azimuth coverage against all threats at increased ranges. — Id. sect. 1.
