There are many books written on the need to change consciousness but rarely does anyone explore the depths of humanity's refusal to do so, even under threat of the approaching cataclysm in our refusal to deal with climate change. Dave MacQuarrie has written such a book. In it, he explains both why it is so difficult for us to change and what all of us can do to become more aware and more free of the darkness within. It is a superb book. - Jim Garrison, President and CEO of Ubiquity University, and author of Civilization and the Transformation of Power. Acedia is a well-informed and inspired book about the historical and psychological origins of a centuries old affliction. Acedia masterfully connects the dots between personal psychological

traumas and looming environmental collapse. Dr. MacQuarrie pulls no punches, yet offers a ray of hope that we just might save our future. – Christian de Quincey, PhD, Professor of Philosophy and Consciousness Studies, John F. Kennedy University, and author of *Radical Nature: The Soul of Matter*. This is a wise, searching book by an authentic scholar and seeker. It helps us enter into the darker waters of our crisis, and find their treasures of dark wisdom and endurance. – Andrew Harvey, poet, mystical scholar, Founder/Director of the Institute of Sacred Activism, and author of *The Hope: A Guide to Sacred Activism*. Dr. MacQuarrie has lifted the ancient monastic curse of *acedia* out of its medieval tomb and applied it aptly to the dis-ease of the contemporary world. His interpretation of the human resistance is perceptive and provides important insights into our present inclination to repudiate changes that demand action on our part. A serious and sensitive work. – Father John-Julian, an Episcopal priest and contemplative monk, translator of *Julian of Norwich's Revelations of Divine Love*.

"Grand challenges" represent a focused method of attacking the most deeply significant problems of a discipline, organization, or society itself. Since the concept was first introduced over a century ago, more than 600 governments, foundations, and professions subsequently adopted this language and approach, often to excellent effect. In 2012, the social work profession launched its own national initiative, with aim of using science, innovation, and new forms of collaboration to accelerate progress toward critically needed social solutions. There was also strong corollary interest in changing the profession itself, introducing new forms of practice and problem-solving. The American Academy of Social Work and Social Welfare served as the first home of the Grand Challenges initiative in social work; in 2017, as the initiative grew more complex, it became an independent organization"--

The Bible barely mentions his name, but people of antiquity knew him well. Ancient historians recorded substantial information about him. Who was Nimrod? How could such a man be of such importance to today's believer? God's history is replete with accounts of His followers suffering terrible persecution. People of today's world are largely unaware of a lesser-known story, written by the blood of many believers at a time following God's destruction of the Old World. Nimrod was born into a New World, recently recreated by God. This virgin creation was untainted by the wickedness of the Old World. However, innocence did not last long. Eight people had traveled God's floodwaters of judgment in the security of His ark, but the curse of sin still tainted their souls. The prince of darkness wasted no time sowing seeds of rebellion in fertile hearts. He handpicked Nimrod to transform the New World into a cauldron of rebellion. The post-flood world began in present-day Iraq. Several cities conquered by Nimrod are still in existence today. The events happening in present-day Iraq are not coincidental. The world will witness more conflict and fulfilled Bible prophecy in this land until God's Seed returns to fulfill the ancient prophecy recorded in Genesis 3:15.

To other vampires, mortals are weak, uninteresting creatures. To Lucien Valin, they are infinitely fascinating. Especially Jocelyn Kingly—once the prize of London society, now an outcast. As the vampire assigned to guard her, Lucien is relishing his task. But her beguiling goodness puts her in terrifying danger. Not just from the traitor intent on claiming her mysterious amulet, but from the desire Lucien struggles to keep in check. Youthful infatuation already cost Jocelyn her good name. But even with little to lose, instinct tells her that accepting Lucien as a tenant in her home is a devil's bargain. As she roams London's streets at night, helping the most wretched, she feels a dark force drawing near. And Lucien—magnetic, charming, irresistible—may turn out to be her savior, her lover, or the means to change her destiny forever. Cyn, the chief of Ireland's vampire clan, is an unabashed hedonist whose beauty is surpassed only by his insatiable appetite for pleasure. It's no wonder he's furious when he's transported from the magical land of the pureblooded feys to his desolate medieval castle. But he's about to face a level of turmoil and trouble that even he cannot charm his way out of... Most women are all but powerless against Cyn's charms. But Fallon, a sharp-witted fairy princess, is less than beguiled by the silver-tongued vampire. She's a serious soul with no time for the sort of games he plays—especially when they learn that someone is trying to close the veil that separates the dimensions. But seduction may prove the most powerful force of all, as attraction ignites between the unlikely pair even as worlds collide around them.
