fisherman. In *Walleye: A Beautiful Fish of the Dark* he unspools the mysteries of this fascinating fish. Radomski looks at walleye from every angle, with something to say to the curious naturalist, committed ecologist, and avid fishing enthusiast. People who view walleye as the "lion of the lakes" might be surprised to learn that rivers are their ancestral habitat. Some might wonder about the name "wall-eye," a nod to an evolutionary adaptation to dark water environments. Others might simply ask: why walleye? What are they, where do they exist, how do they survive, and how have people come to depend on them? Radomski discusses the principles and pitfalls of managing this predator of the twilight (and the history and methods of doing so) and shares his informed perspective on when and where stocking is prudent. Finally, he explores three of the best walleye lakes: Winnebago, the largest inland walleye fishery in Wisconsin, and Mille Lacs and Red Lake in Minnesota. From the simple pleasures of fishing for walleye to the most pressing questions about how this species survives, this book is the best word on this beautiful fish of the dark.

Larry David, the man behind two of the most successful and critically acclaimed sitcoms in television history, is the focus of this biography. This unofficial guide follows the career that has accorded him status as a comic genius and garnered a fanatical following—from his early exploits as a stand-up comic to his role as producer and cocreator of *Seinfeld* and HBO's *Curb Your Enthusiasm*. It explores the back-story of the conception and development of *Curb Your Enthusiasm*, a mostly improvised sitcom in which the actor stars as a fictionalized version of himself. The comic's on- and off-screen relationships with colleagues and friends such as Richard Lewis, Ted Danson, Wanda Sykes, Mary Steenburgen, and the cast members of *Seinfeld* are discussed, and a detailed episode guide to every season of *Curb Your Enthusiasm* completes this informative and entertaining glimpse into the life and creative process of a great comic talent.
