At the same time that discourse analysis can provide insight into the linguistic means by which frames are created in interaction, the concept of framing provides a fruitful theoretical foundation for the discourse analysis of interaction. In fact, frames theory already lies at the heart of the most

Framing in Discourse - Communication Cache

Framing in Discourse. Framing is currently a principal concern within the field of discourse analysis. The 'frame' of a given speech-act is its psychological setting. Both the speaker and the hearer have certain expectations based on their perceptions of the frame, and this affects their choice of words and their understanding of what is said.
