~~Gender, the Environment and Sustainable Development in -~~

One of the main Sustainable Development Goals, set out in the United Nations' 2030 Agenda, seeks to "achieve gender equality and empower all women and girls". But why is this goal regarded as indispensable to achieving sustainable development? According to UN data, 19% of women between 15 and 49 years-old say they had suffered physical or sexual violence – or both – at their hands of their partner in the year before they were surveyed.
