Tourism geography is that branch of human geography that deals with the study of travel and its impact on places. Geography is fundamental to the study of tourism, because tourism is geographical in nature. Tourism occurs in places, it involves movement and activities between places and it is an activity in which both place characteristics and personal self-identities are formed, through the relationships that are created among places, landscapes and people.

This clear and engaging text introduces undergraduate students to the vast and diverse subject of tourism through the lens of geography. Indeed, geography and tourism have always been interconnected, and Velvet Nelson draws on human and physical geography to interpret all facets of tourism—economic, social, and environmental. She shows how geography provides the tools and concepts to consider both the positive and negative factors that affect tourists and destinations, as well as the effects tourism has on both peoples and places. Her thematic approach uses real-world case studies, based on research and on the experiences of tourists themselves, to vividly illustrate key issues. This comprehensive introduction will enhance students' understanding of geographic concepts and how they can be used as a way of viewing and understanding the world.
