teaching, sex education is the duty of the parents, yet many parents still struggle to convey the facts of life to their children in a natural and inspiring way. Applying traditional Catholic principles to very practical questions, Fr. Sattler explains what parents should tell their children, when and how they should tell it, what moral and psychological dangers they must avoid, and what questions they should anticipate. His conversational and down to earth style provides parents with the confidence and practical wisdom to fulfill their role as their children's primary teachers of the facts of life.

both highlighted the importance of risk management and insurance. Giving particular attention to the market's increased sense of vulnerability and the newest technologies, Risk Management and Insurance provides a clear introduction to the complexities of this field. With chapters on topics such as e-risks and enterprise risk and a focus on connecting each chapter into the bigger picture, Baranoff's approach is to show students how the latest developments and the field's traditional approaches fit together.

Those connected with the petroleum industry will need no introduction to *The Petroleum Handbook*. It is a technically-oriented manual whose aim is to provide explanations of the processes of today's petroleum industry, from crude oil exploration to product end use, with some historical background and explanation of the economic context in which the oil, gas and petrochemical businesses operation. Much of the material in this sixth edition is completely new and includes the latest information on world oil and gas reserves, future prospects,
