he could see things that others could not, and because of that gift , he might be able to save them some misery. This is a tale of an ordinary guy with the ability to use his extraordinary talent to help those in trouble and to right some wrongs, all from the front seat of a car. We all might consider backing up a sedan mundane, but in Brads case, that simple maneuver took on new meaning.

Memoirs of the author, politician and former army captain of Pakistan.

War and Peace in Contemporary India examines the importance of institutions and the role played by international actors in crucial episodes of India ' s strategic history. The contributions trace India ' s tryst with war and peace from immediately before the foundation of the contemporary Indian state, to the last military conflict between India and Pakistan in 1999. The focus of the chapters included in this edited volume is as much on India as it is on Pakistan and China, its opponents in war. The chapters offer a fresh take on the creation of India as a regional military power, and her approach to War and Peace in the post-independence period. Importantly, it advances the broader work on Indian strategic history during the Cold War and after, an otherwise under-studied intellectual landscape. The book offers fresh insights based on archival work, as well as a closer conceptual reading of Indian, British and American decision making at times of war and peace in contemporary India. This book will be of great interest to scholars, researchers and students interested in strategic studies, diplomatic and military history, international diplomacy, as well as Indian history and politics. The chapters in this book were originally published as a special issue of the Journal of Strategic Studies.

Articles, chiefly on Telugu folk literature.

China and Pakistan have been each other's only 'all-weather friend' for decades, but the relationship remains little understood. Small recounts the history of the Sino-Pakistani axis, including details on its most sensitive aspects, such as China's dealings with the Taliban and its support for Pakistan's nuclear programme. Today this relationship plays a central role in Asia's geopolitics, with ramifications for Afghanistan, India, Asia as a whole, and the West. Finally, Small discusses the dilemma China faces in maintaining its current relationship with Pakistan.

This study explores the interconnections of the British, Chinese, and trans-ethnic and trans-national aspects of Mo's imagination. It deals with his artistry as well as his controversial statements and actions in the public domain.
