With humor, passion, and grace, the contributors lay bare poignant attempts at conformity and the alienation sometimes experienced by ethnic Americans. But they also tell of the strength gained through the preservation of their communities, and the realization that it was often their difference from the norm that helped them to succeed. In pieces suggesting that American identity is far from settled, these writers illustrate the diversity that is the source of both the nation's great discord and infinite promise. "These beautiful stories radiate with the poignant, ingenious ways young people come to terms with their ethnic identities, negotiating their families, school, friends and their futures. . . . This exemplary collection fulfills the editors' aims: to open dialogue and encourage the telling of difficult, adaptive or affirming life experiences." -Publisher's Weekly

People's experiences of racial inequality in adulthood are well documented, but less attention is given to the racial inequalities that children and adolescents face. Growing Up in America provides a rich, first-hand account of the different social worlds that teens of diverse racial and ethnic backgrounds experience. In their own words, these American teens describe, conflicts with parents, pressures from other teens, school experiences, and religious beliefs that drive their various understandings of the world. As the book reveals, teens' unequal experiences have a significant impact on their adult lives and their potential for social mobility. Directly confronting the constellation of advantages and disadvantages white, black, Hispanic, and Asian teens face today, this work provides a framework for understanding the relationship between socialization in adolescence and social inequality in adulthood. By uncovering the role racial and ethnic differences play early on, we can better understand the sources of inequality in American life.

A moving collection of fiction featuring some of the nation's brightest voices on the complex and profound subject of race and ethnicity in America.

Contributions by Hena Ahmad, Linda Pierce Allen, Mary J. Henderson Couzels, Sarah Park Dahlen, Lan Dong, Tomo Hattori, Jennifer Ho, Ymitri Mathison, Leah Milne, Joy Takako Taylor, and Traise Yamamoto Often referred to as the model minority, Asian American children and adolescents feel pressured to perform academically and be disinterested in sports, with the exception of martial arts. Boys are often stereotyped as physically unattractive nerds and girls as petite and beautiful. Many Americans remain unaware of the diversity of ethnicities and races the term Asian American comprises, with Asian American adolescents proving to be more invisible than adults. As a result, Asian American adolescents are continually searching for their identity and own place in American society. For these kids, being or considered to be American becomes a challenge in itself as they assert their Asian and American identities; claim their own ethnic identity, be they immigrant or American-born; and negotiate their ethnic communities. The contributors to Growing Up Asian American in Young Adult Fiction focus on moving beyond stereotypes to examine how Asian American children and adolescents define their unique identities. Chapters focus on primary texts from many ethnicities, such as Chinese, Korean, Filipino, Japanese, Vietnamese, South Asian, and Hawaiian. Individual chapters, crossing cultural, linguistic, and racial boundaries, negotiate the complex terrain of Asian American children's and teenagers' identities. Chapters cover such topics as internalized racism and self-loathing; hyper-sexualization of Asian American females in graphic novels; interracial friendships; transnational adoptions and birth searches; food as a means of assimilation and resistance; commodity racism and the tourist gaze; the hostile and alienating environment generated by the War on Terror; and many other topics.

Brings together the childhood memories of a hundred men and women, young and old, who reflect on family life, interaction with the gentile world, and the meaning of peace

A moving exploration of what it means to be an American born and reared abroad

Vietnamese Americans form a unique segment of the new U.S. immigrant population. Uprooted from their homeland and often thrust into poor urban neighborhoods, these newcomers have nevertheless managed to establish strong communities in a short space of time. Most remarkably, their children often perform at high academic levels despite difficult circumstances. Growing Up American tells the story of Vietnamese children and sheds light on how they are negotiating the difficult passage into American society. Min Zhou and Carl Bankston draw on research and insights from many sources, including the U.S. census, survey data, and their own observations and in-depth interviews. Focusing on the Versailles Village enclave in New Orleans, one of many newly established Vietnamese communities in the United States, the authors examine the complex skein of family, community, and school influences that shape these children's lives. With no ties to existing ethnic communities, Vietnamese refugees had little control over where they were settled and no economic or social networks to plug into. Growing Up American describes the process of building communities that were not simply transplants but distinctive outgrowths of the environment in which the Vietnamese found themselves. Family and social organizations re-formed in new ways, blending economic necessity with cultural tradition. These reconstructed communities create a particular form of social capital that helps disadvantaged families overcome the problems associated with poverty and ghettoization. Outside these enclaves, Vietnamese children faced a daunting school experience due to language difficulties, racial inequality, deteriorating educational services, and exposure to an often adversarial youth subculture. How have the children of Vietnamese refugees managed to overcome these challenges? Growing Up American offers important evidence that community solidarity, cultural values, and a refugee sensibility have provided them with the resources needed to get ahead in American society. Zhou and Bankston also document the price exacted by the process of adaptation, as the struggle to define a personal identity and to decide what it means to be American sometimes leads children into conflict with their tight-knit communities. Growing Up American is the first comprehensive study of the unique experiences of Vietnamese immigrant children. It sets the agenda for future research on second generation immigrants and their entry into American society.
