The New York Times bestselling author of Bitter Brew chronicles the birth and rise to greatness of the American auto industry through the remarkable life of Harley Earl, an eccentric six-foot-five, stuttering visionary who dropped out of college and went on to invent the profession of automobile styling, thereby revolutionized the way cars were made, marketed, and even imagined. Harleys Earl’s story qualifies as a bona fide American family saga. It began in the Michigan pine forest in the years after the Civil War, traveled across the Great Plains on the wooden wheels of a covered wagon, and eventually settled in a dirt road village named Hollywood, California, where young Harley took the skills he learned working in his father’s carriage shop and applied them to designing sleek, racy-looking automobile bodies for the fast crowd in the burgeoning silent movie business. As the 1920s roared with the sound of mass manufacturing, Harley returned to Michigan, where, at GM’s invitation, he introduced art into the rigid mechanics of auto-making. Over the next thirty years, he functioned as a kind of combination Steve Jobs and Tom Ford of his time, redefining the form and function of the country’s premier product. His impact was profound. When he retired as GM’s VP of Styling in 1958, Detroit reigned as the manufacturing capitol of the world and General Motors ranked as the most successful company in the history of business. Knoedelseder tells the story in ways both large and small, weaving the history of the company with the history of Detroit and the Earl family as Fins examines the effect of the automobile on America’s economy, culture, and national psyche.

A beautiful and comprehensive celebration of the art and design of classic motorcycles, from the early twentieth century through the 1950s. This is the most beautiful book of its kind: celebrating the art and design of the luxury motorcycle by presenting forty of the best-designed and most enduringly iconic motorcycles ever made, spanning half a century. The book showcases forty rare and exceptional motorcycles, from 1905 to 1956, presented in chronological order, illustrated with stunning studio photographs that present the machines as works of art and wonders of design in themselves. An international roster is featured: a 1905 Peugeot Factory Racer, a 1916 Indian Power Plus, a 1929 Majestic, a 1936 Excelsior Manxman, a 1951 Harley Davidson 750CC WR, a 1951 Vincent 1000CC Black Shadow, and a 1955 Triumph Tiger Cub, among others. Written by a motorcycle collector and expert, the book presents the history of the motorcycle through the most significant makes of all time. Each is accompanied by detailed images and texts covering the bike’s background, legends behind the machines, feats of design and engineering, and tales of classic races, rallies, and motorcycle shows. The book is enhanced with reproductions of period ads and historic photos, evoking a sense of time and place.

The Art of Monsters, Inc. opens the door into Pixar’s colorful archives of concept art and to the endearing story of Monsters, Inc. Since the very first bedtime, children around the world have known that once their parents tuck them into bed and shut off the light, monsters lie waiting behind closet doors, ready to emerge. But what they don’t realize is that these monsters scare children because they have to. It’s their job. This superb film from Pixar Studios, the people who brought you Toy Story, A Bug’s Life, and Toy Story 2, reveals the truth about monsters with the brilliant techniques that have earned them their reputation as a ground-breaking animation studio. This incredible body of artwork was commissioned from the top artists, illustrators, and animators in the industry and from it the ultimate visual approach of the film was defined. From sketches scribbled on napkins and quickly inked marker drawings, to finished oil paintings and fabulous pastel color scripts, this behind-the-scenes artwork reveals the elaborate creative process behind a blockbuster film.

After Batman meets a young boy whose parents were murdered, he reflects on his own life and examines the nature of crime in Gotham City.

Please note that this product does not contain real gold or real marble. The rose gold text & marble background are ink-printed design graphics for effects only. Order yours now!

DIVAnyone who rides a motorcycle lives, to some degree, in the margins of society. Where members of the herd drive Toyota Camrys and hipster hatchbacks, bikers opt for Harley-Davidsons, Triumphs, and Ducatis, putting themselves out there like raised middle fingers thrust at the ordinary citizens of the world. And just as a motorcyclist’s ride is an affront to the sensibilities of the meek and the conventional, so too is the ink on his or her skin. Tattoos have long been an integral part of this culture, the result of the overwhelming number of ex-military men who formed the nucleus of the postwar outlaw motorcycle club scene. These soldiers, sailors, and marines returned from war with statements etched in ink upon their bodies, and they continued that tradition when they formed the clubs that came to define motorcycle culture. In 1000 Biker Tattoos, motorcycle photographer Sara Liberté celebrates this most personal of art forms by capturing the wild abandon of the motorcycle lifestyle as expressed through tattoo work. Featuring 1,000 photos of tattoos and the artwork used to create them, along with profiles of the most renowned tattoo artists in the biker community, this book provides an unprecedented window into the most intimate aspect of motorcycle culture./div

Provides over 1400 articles that deal with materials and techniques in art from ancient times to the present, including such media as ceramics, sculpture, metalwork, painting, works on paper, textiles, video, and computer art.

America’s original - and long considered its best - sports car, the Chevrolet Corvette is fast, sexy, sleek, sublime. The legacy of the Corvette is matched only by its beauty, captured here like never before. Art of the Corvette profiles two dozen Corvettes from all seven generations, beginning with the first 1953 Blue Flame Six Corvette and concluding with the return of an icon, the stunning 2014 Corvette Stingray. Using a unique style of portraiture known as light-painting, acclaimed photographers Randy Leffingwell and Tom Loeser present the most recognizable, unique, and historic Corvettes ever produced. From the chrome-lined grilles of the 1953 Roadster and sexy curves of the first C3s to the aggressive snarl of the 2012 ZR1 and the bold, blunt powerhouse of the 2014 Corvette Stingray, all are presented in breathtaking color and detail. Rare and one-off cars abound as well, like the 1963 Z06 Sting Ray and one of only a handful of 1967 L88 convertibles. With an authoritative text by Leffingwell, one of the world’s leading Corvette historians, and over 200 stunning photographs, Art of the Corvette presents this landmark of American automotive engineering and design, the Chevrolet Corvette, as never before seen. Some of the vehicles you’ll find inside include: 1953 Corvette - 1963 Sting Ray Z06 coupe - 1966 Sting Ray L72 coupe - 1969 L71 convertible - 1978 Indy Pace Car - 1989 convertible - 1996 Grand Sport coupe - 2003 50th anniversary convertible - 2012 ZR1 coupe - 2014 C7 Stingray coupe

"The Statement of Harley Warren" is a pictorial adaptation of H. P. Lovecraft’s 1919 short story "The Statement of Randolph Carter." It is created with stop motion models using practical and CGI sets. Rick Grimes (The Puzz Fundles, Weird Dick) calls it "Gummy meets Cthulthu." Thomas Yeates (Prince Valiant, Time Spirits) said: Wonderful! Excellent characters, story set-up in the jail, props, etc. I particularly like page 8. Where there’s a nice zoom ending with an excellent special effect of the transparent tenticled horror. The text of " The Statement of Randolph Carter" is included for those of you not familiar with this now public domain Lovecraft gem. So it the beginning of my next project, Dream Quest of Unknown Kadath. Extras include a 1980 Lovecraft critter drawn by Steve Bissette & Larry Loc, a how to section of CGI compositing and early Dream Quest designs.
