This book focuses on an organization, the U.S. Army Nurse Corps, which the author has been privileged to be affiliated with — in one way or another — for the greatest part of her adult life. As an active duty officer, the author had first-hand knowledge about the Army Nurse Corps inner workings and spent the last years of her Army career (from 1992) researching and writing the Corps history. One of her goals in researching and writing this history was to intrigue and provide a sense of gratification for the reader. After the conclusion of the Vietnam War, several wide-ranging and significant changes exerted myriad effects on the Army Nurse Corps. The most influential of these phenomena included the dismantling of the Selective Service System, the reorganization of the Army, the launch of the Health Services Command (HSC), the opening of the Academy of Health Sciences, the transformation of the Office of the Army Surgeon General, the inauguration of improvements in the Army Reserve and National Guard, and the evolution in the roles and status of women.

Distributed by the University of Nebraska Press for Caxton Press This 352-page, triple indexed reference book covers nearly 500 names in the two north Pacific coast states. All known common carrier steam powered operations of ten or more miles are included, plus numerous logging companies, electric traction and diesel operations. The account covers their histories from inception until sale or abandonment - or until 1993 if still active. Railroad titles are full and exact.
