The arrival of a new style of music and a new type of drug in 1988 ignited a revolution. To coincide with the 25th anniversary of the second summer of love, this is the definitive story of the seismic movements in music and youth culture that changed the cultural landscape forever. Luke Bainbridge is uniquely positioned to tell this story, having connections both in the industry, through nearly two decades as a music journalist, and on the dancefloor, through two decades of dancing, promoting and DJing. Bainbridge has interviewed most of the protagonists who led the revolution, from the DJs and musicians to the promoters, gangsters and ravers, and built up a relationship of trust and mutual respect. This will be true story of acid house, from the DJ box to the dance floor. He examines the legacy and lasting impact of acid house, and how the second summer of love is viewed 25 years on. How has acid house been assimilated into mainstream culture? How did the change in drugs, away from ecstasy towards other drugs, affect the music and the party scene? Why has the free party scene never really been replicated, despite new technology greater capacity to organise events and disseminate information? Did the summer of 1988 leave us with a generation of drug users? Has there been any lasting effect of such an explosion in drug use? Who were the real winners and casualties in the story? Do the world's current biggest DJs Tiesto, Swedish House Mafia, David Guetta have any connection to the original scene? Where next for house and dance music in general?

From its first publication in 1997, *Altered State* established itself as the definitive text on Ecstasy and dance culture. This new edition sees Matthew Collin cast a fresh eye on the heady events of the acid house 'Summer of Love' and the rave scene's euphoric escalation into commercial excess as MDMA became a mass-market narcotic. *Altered State* is the best-selling book on Ecstasy culture, using a cast of memorable characters to track the origins of the scene and its drug through psychedelic subcults, underground gay discos and the Balearic paradise of Ibiza, to the point where Tony Blair was using an Ecstasy anthem as an election campaign song. *Altered State* critically examines the ideologies and myths of the scene, documenting the criminal underside to the blissed-out image, shedding new light on the social history of the most spectacular youth movement of the twentieth century.

This book tells the full story of house music in Chicago, from its emergence to its queer remediation to its memorialization from the late '70s to the present.

Today, no matter where you are in the world, you can turn on a radio and hear the echoes and influences of Chicago house music. *Do You Remember House?* tells a comprehensive story of the emergence, and contemporary memorialization of house in Chicago, tracing the development of Chicago house music culture from its beginnings in the late '70s to the present. Based on expansive research in archives and his extensive conversations with the makers of house in Chicago's parks, clubs, museums, and dance studios, author Micah Salkind argues that the remediation and adaptation of house music by crossover communities in its first decade shaped the ways that Chicago producers, DJs, dancers, and promoters today re-remember and mobilize the genre as an archive of collectivity and congregation. The book's engagement with musical, kinesthetic, and visual aspects of house music culture builds from a tradition of queer of color critique. As such, *Do You Remember House?* considers house music's liberatory potential in terms of its genre-defiant repertoire in

motion. Ultimately, the book argues that even as house music culture has been appropriated and exploited, the music's porosity and flexibility have allowed it to remain what pioneering Chicago DJ Craig Cannon calls a "musical Stonewall" for queers and people of color in the Windy City and around the world.

Roger and Carolyn Perron purchased the home of their dreams and eventual nightmares in December of 1970. The Arnold Estate, located just beyond the village of Harrisville, Rhode Island seemed the idyllic setting in which to raise a family. The couple unwittingly moved their five young daughters into the ancient and mysterious farmhouse. Secrets were kept and then revealed within a space shared by mortal and immortal alike. Time suddenly became irrelevant; fractured by spirits making their presence known then dispersing into the ether. The house is a portal to the past and a passage to the future. This is a sacred story of spiritual enlightenment, told some thirty years hence. The family is now somewhat less reticent to divulge a closely-guarded experience. Their odyssey is chronicled by the eldest sibling and is an unabridged account of a supernatural excursion. Ed and Lorraine Warren investigated this haunting in a futile attempt to intervene on their behalf. They consider the Perron family saga to be one of the most compelling and significant of a famously ghost-storied career as paranormal researchers. During a seance gone horribly wrong, they unleashed an unholy hostess; the spirit called Bathsheba; a God-forsaken soul. Perceiving herself to be the mistress of the house, she did not appreciate the competition. Carolyn had long been under siege; overt threats issued in the form of fire...a mother's greatest fear. It transformed the woman in unimaginable ways. After nearly a decade the family left a once beloved home behind though it will never leave them, as each remains haunted by a memory. This tale is an inspiring testament to the resilience of the human spirit on a pathway of discovery: an eternal journey for the living and the dead.

On March 2, 1965, "The Sound of Music" was released in the United States and the love affair between moviegoers and the classic Rodgers and Hammerstein musical was on. Rarely has a film captured the love and imagination of the moviegoing public in the way that "The Sound of Music" did as it blended history, music, Austrian location filming, heartfelt emotion and the yodeling of Julie Andrews into a monster hit. Now, Tom Santopietro has written the ultimate "Sound of Music" fan book with all the inside dope from behind the scenes stories of the filming in Austria and Hollywood to new interviews with Johannes von Trapp and others. Santopietro looks back at the real life story of Maria von Trapp, goes on to chronicle the sensational success of the Broadway musical, and recounts the story of the near cancellation of the film when the "Cleopatra" bankrupted 20th Century Fox. We all know that Julie Andrews and Christopher Plummer played Maria and Captain Von Trapp, but who else had been considered? Tom Santopietro knows and will tell all while providing a historian's critical analysis of the careers of director Robert Wise and screenwriter Ernest Lehman, a look at the critical controversy which greeted the movie, the film's relationship to the turbulent 1960s and the super stardom which engulfed Julie Andrews. Tom Santopietro's "The Story of 'The Sound of Music'" is book for everyone who cherishes this American classic.

A family relocates to a small house on Ash Tree Lane and discovers that the inside of their new home seems to be without boundaries

The House That Jack Built reveals the truth behind one of history's greatest untold stories. An old lead miner and his wife who took up residence in a remote cave on a windswept beach in South Shields. A pub was built within the cave and a search initiated to find buried Roman treasure hidden in a network of underground caves and tunnels.

Music and Heritage provides new thinking about the diverse ways people engage with heritage. By exploring the relationships that exist between music,

place and identity, the book illustrates how people form attachments to place and how such attachments are represented by sound and music-making. Presenting case studies and perspectives from across a range of genres, the volume argues that combining music with heritage provides an alternative and productive opportunity to think about heritage values and place attachment. Contributions to this edited collection use a diversity of methods, perspectives, cues and genres to reflect critically on issues related to these and other interconnections in ways that encourage new thinking about the character, meaning and purpose of cultural heritage, and the various ways in which people can interact with it through sound – thus re-encountering the supposedly familiar world around them. Taking heritage studies, musicology and place-making research in new directions, *Music and Heritage* will be of interest to academics and students engaged in the study of heritage, history, music, geography and anthropology. It will also be relevant to those with an interest in how music relates to place-making and place attachment, as well as to practitioners and policymakers working in the planning, design and creative sectors.
