The Taming of the Demons examines mythic and ritual themes of violence, demon taming, and blood sacrifice in Tibetan Buddhism. Taking as its starting point Tibet's so-called age of fragmentation (842 to 986 C.E.), the book draws on previously unstudied manuscripts discovered in the "library cave" near Dunhuang, on the old Silk Road. These ancient documents, it argues, demonstrate how this purportedly inactive period in Tibetan history was in fact crucial to the Tibetan assimilation of Buddhism, and particularly to the spread of violent themes from tantric Buddhism into Tibet at the local and the popular

levels. Having shed light on this "dark age" of Tibetan history, the second half of the book turns to how, from the late tenth century onward, the period came to play a vital symbolic role in Tibet, as a violent historical "other" against which the Tibetan Buddhist tradition defined itself. -- Georges Dreyfus

A newly translated volume of the centuries-old spiritual epic of King Gesar. For centuries, the epic tale of Gesar of Ling has been told across Asia. This epic is a living oral tradition, performed widely by singers and bards and beloved especially in Tibet. Considered the longest single piece of literature in the world canon, the epic of Gesar chronicles the legend of King Gesar of Ling, a heroic figure known for his fearless leadership. The epic encompasses some 120 volumes and nearly 20 million words, and there are numerous versions across cultures. This book is the first English translation of the fourth volume of this sweeping literary work, with stories from after Gesar's coronation to the throne of Ling. This volume focuses on battles won and strategies applied, as the warrior-king Gesar fended off demons and liberated his foes. Though largely a violent account focused on his superhuman prowess in battle, this volume is rich with ethical proverbs that inform Tibetan culture to this day. A significant work of legend, the epic of Gesar is also a vital part of Tibetan Buddhism, as Gesar is said to have been chosen by celestial beings to restore order and destroy anti-Buddhist forces. The epic of Gesar is the cultural touchstone of Tibet, analogous to the Iliad or the Odyssey. While Book One covers Gesar's birth, youth, and rise to power, this volume recounts the martial victories and magical feats that made him a legendary figure to so many.

demons, the stronger they become. Offering Eastern answers to Western needs, Tsultrim seamlessly weaves traditions from Tibet and the Western world to offer a new and unique answer to the problems that plague us: that rather than attempt to purge them, we need to reverse our approach and nurture our demons. This powerful five-step practice forms a strategy for transforming negative emotions, relationships, fears, illness and self-defeating patterns. This will help you cope with the inner enemies that undermine our best intentions.

All I wanted to do was live my life in peace. Maybe get a cat, expand my spice farm. Really anything that doesn't involve going on a quest where an orc might rip my face off. But they say the Goddess has favorites. If so, I'm clearly not one of them. After saving the demon Fallon in a wine-drunk stupor, all he wanted to do was kill an evil witch enslaving his people. I mean, I get it. But he's dragging me along for the ride, and I'm kind of peeved about it. On the bright side, he keeps burning off his shirt.

Trafficking with Demons explores how magic was perceived, practiced, and prohibited in western Europe during the first millennium CE. Through the overlapping frameworks of religion,

ritual, and gender, Martha Rampton connects early Christian reckonings with pagan magic to later doctrines and dogmas.

Challenging established views on the role of women in ritual magic during this period, Rampton provides a new narrative of the ways in which magic was embedded within the foundational assumptions of western European society, informing how people understood the cosmos, divinity, and their own Christian faith. As Rampton shows, throughout the first Christian millennium, magic was thought to play a natural role within the functioning of the universe and existed within a rational cosmos hierarchically arranged according to a "great chain of being." Trafficking with the "demons of the lower air" was the essence of magic. Interactions with those demons occurred both in highly formalistic, ritual settings and on a routine and casual basis. Rampton tracks the competition between pagan magic and Christian belief from the first century CE, when it was fiercest, through the early Middle Ages, as atavistic forms of magic mutated and found sanctuary in the daily habits of the converted peoples and new paganisms entered Europe with their own forms of magic. By the year 1000, she concludes, many forms of magic had been tamed and were, by the reckoning of the elite, essentially ineffective, as were the women who practiced it and the rituals that attended it.
