This book is controversial because it attacks a system that has been around for a hundred or more years. It stings the male ego. The book is provoking, and it attacks the foundation of our societys hypocrisy, especially the males relationship to woman. It follows after the authors first novel, Spacestation, ARK, that shows a way, in the future, for fulfilling the males sexual needs. This is a harsher book; not a men are from Mars and women are from Venus, but a book of how men are from the Sun and women are from Pluto. Its a tongue-in-cheek dialogue that every man will understand. We say it with every breath we breathe: We cant live with them, and yet we cant live without them. But we wish we could find a way to live without them for just a while longer. I know the humor of it all will show through because as males, we have all been there in some way or other. For Males Only is a manual for men (advice to men on methods to avoid relationships with women). The result and reward for following the program as outlined is to either make more money or to end up keeping the money rather than spending a lot of time just wining and dining. The advice given will most definitely serve its purpose if followed religiously. This advice (if you will) is by no means meant to be a guide on how to avoid women completely; however, in some cases, you may want to. Ex-wives, goldiggers (unless shes digging gold for you), and neurotics should be taken off your list of potential dating material even if she does insist on picking up the tab or meeting you half way. In other words, its your way or no way. This indeed is a must-have for any libraryparticularly yours.

This manual is the highly recommended companion to CPRT: A 10-Session Filial Therapy Model. Accompanied by a CD-Rom of training materials, which allows for ease of reproduction and enhanced usability, the workbook will help the facilitator of the filial training and will provide a much needed educational outline to allow filial therapists to pass their knowledge on to parents. The Treatment Manual provides a comprehensive outline and detailed guidelines for each of the ten sessions, facilitating the training process for both the parents and the therapist. The book contains a designed structure for the therapy training described in the book, with child-centered play therapy principles and skills, such as reflective listening, recognizing and responding to children's feelings, therapeutic limit setting, building children's self-esteem, and structuring required weekly play sessions with their children using a special kit of selected toys. Bratton and her co-authors recommend teaching aids, course materials, and activities for each session, as well as worksheets for parents to complete between sessions. By using this workbook and CD-Rom to accompany the CPRT book, filial therapy leaders will have a complete package for use in training parents to act as therapeutic agents with their own children. They provide the therapist with a complete package for training parents to act as therapeutic agents with their own children.
