I found Ina May’s Guide to Childbirth inspiring and empowering. It has helped me and countless other women to overcome standard western views of children, namely fear and of childbirth, and it also demonstrates that there simply is no 'one size fits all' in labour: all women labour differently, and all women can be aided by different methods to ease their labour experiences.

Renowned for her practice’s exemplary results and low intervention rates, Ina May Gaskin has gained international notoriety for promoting natural birth. She is a much-beloved leader of a movement that seeks to stop the hyper-medicalization of birth,which has lead to nearly a third of hospital births in America to be cesarean sections, and renew confidence in a woman’s natural ability to birth. Upbeat and informative, Gaskin asserts that the way in which women become mothers is a women’s rights issue, and it is perhaps the act that most powerfully exhibits what it is to be instinctually human. Birth Matters is a spirited manifesta showing us how to trust women, value birth, and reconcile modern life with a process as old as our species.

A revised and updated edition of the classic handbook for women seeking a safe, organic, eco-friendly, and natural pregnancy, featuring an integrative-based approach with new medical, herbal, and nutritional information. Over the last two decades, The Natural Pregnancy Book has ushered thousands of women through happy and healthy pregnancies. Addressing women’s health from conception to birth, Dr. Romm describes herbs that can promote and maintain a healthy pregnancy, and allays such familiar concerns as anxiety, fatigue, morning sickness, and stretch marks. She also discusses the components of a healthy diet, with an emphasis on natural foods. New to this edition is integrative health advice based on Dr. Romm’s new credentials as a Yale-trained physician, combined with her twenty years of experience as a midwife and herbalist.

An authoritative guide to natural childbirth and postpartum parenting options from an MD who home-birthed her own four children. Sarah Buckley might be called a third-wave natural birth advocate. A doctor and a mother, she approaches the question of how a woman and baby might have the most fulfilling birth experience with respect for the wisdom of both medical science and the human body. Using current medical and epidemiological research plus women’s experiences (including her own), she demonstrates that what she calls "undisturbed birth" is almost always healthier and safer than high-technology approaches to birth. Her wise counsel on issues like breastfeeding and sleeping during postpartum helps extend the gentle birth experience into a gentle parenting relationship.
