Our book servers spans in multiple locations, allowing you to get the most less latency time to download any of our books like this one.

[Investigation 20 Doubling Time Exponential Growth Answers](#)
Doubling time is the amount of time it takes for a given quantity to double in size or value at a constant growth rate. We can find the doubling time for a population undergoing exponential growth by using the Rule of 70. To do this, we divide 70 by the growth rate (r). Note: growth rate (r) must be entered as a whole number and not a decimal.
