Java 8 in Action is a clearly written guide to the new features of Java 8. The book covers lambdas, streams, and functional-style programming. With Java 8's functional features you can now write more concise code in less time, and also automatically benefit from multicore architectures. It's time to dig in!

Java 8 in Action: Lambdas, Streams, and functional-style ...

Java 8 in Action is a clearly written guide to the new features of Java 8. It begins with a practical introduction to lambdas, using real-world Java code. Next, it covers the new Streams API and shows how you can use it to make collection-based code radically easier to understand and maintain. It also explains other major Java 8 features including default methods, Optional, CompletableFuture, and the new Date and Time API.

Manning | Java 8 in Action

In this chapter, we teach you about a new feature in Java 8 that tackles this problem: lambda expressions, which let you represent a behavior or pass code in a concise way. For now you can think of lambda expressions as anonymous functions, basically methods without declared names, but which can also be passed as arguments to a method as you can with an anonymous class.

Chapter 3. Lambda expressions - Java 8 in Action: Lambdas ...
