A long line is a fine plastic tube 10 – 15 cm long that is threaded into one of the baby’s small veins in the arm or leg until it reaches a point where the veins are much larger, usually just outside the heart. The TPN can be given through this line and because it emerges into a larger vein the risk of damage to the vein is much reduced.

From NEW YORK TIMES bestseller Lawrence Block. In Manhattan thirty-one men have been meeting annually for years. Their private club meets only to record the passage of time and give toast to the joys of life. But suddenly they are dying at an alarming rate and one of their number begins to suspect that something more than bad luck is at work. For private eye Matt Scudder, the case is one of the most baffling he's faced. Can the deaths really be a bizarre series of suicides and violent accidents? Or is there is a pattern behind the random play of tragedy? Is there a murderer at work and can he be stopped before the victims run out?

Voted America's Best-Loved Novel in PBS's The Great American Read Harper Lee's Pulitzer Prize-winning masterwork of honor and injustice in the deep South—and the heroism of one man in the face of blind and violent hatred One of the most cherished stories of all time, To Kill a Mockingbird has been translated into more than forty languages, sold more than forty million copies worldwide, served as the basis for an enormously popular motion picture, and was voted one of the best novels of the twentieth century by librarians across the country. A gripping, heart-wrenching, and wholly remarkable tale of coming-of-age in a South poisoned by virulent prejudice, it views a world of great beauty and savage inequities through the eyes of a young girl, as her father—a crusading local lawyer—risks everything to defend a black man unjustly accused of a terrible crime.
